Because some boards that were composed solely of Democrats prior to 1896 now have Democratic minority representation, it cannot be inferred that the the conduct of the Public Schools, has expired. The Governor made every change he possibly could, and having done so, it is fair to assume that his inclination to make servery school hoard solidly Republican every school board solidly Republican published by authority of the Democratic was only limited by his opportunities. In Carroll only was a Democrat appointed to succeed himself, and he is the only Democrat in a board of six commissionlished in that paper of May 25, 1899, ers. for the Mudd faction. In a number of the counties the school boards are as partisan as the Republican central committees, and the school system is run exclusively in the interest of the party first, with educational interests as a secondary

consideration. Gov. Lowndes made all this possible by turning the school boards over to partisan Republicans, and his interview in the Sun was the rankest hypocrisy.

Our Republicans friends are boasting very loudly of their determination to carry the county in November next. As there is nothing on the surface indicating that such a calamity will befall this county, there must be some comforting paper published in Howard county, for thre influence at work not visible to the sue public eye. Is it a "barl" they intend to tap at the right time? We warn all In 1896 the School Board consisted of Democrats against the seductive inthree Democrats.
