SETTLED IN HEAVEN.

DR. TALMAGE ON DIVINE INTERPOSI-TION IN HUMAN AFFAIRS.

The Fate of Nations as Well as of Individuals In God's Hands-The World Not Governed in a Haphazard Way.

[Copyright, Louis Klopsch, 1859.] WASHINGTON, Nov. 12.—The idea that things in this world are at loose ends and going at haphazard is in this discourse combated by Dr. Talmage. The text is Psalms exix, 89, "Forever, O Lord, thy word is settled in heaven." This world has been in process of change ever since it was created-mountains born, mountains dying, and they have both cradle and grave. Once this planet was all fluid, and no being such as you or I have ever seen could have lived on it a minute. Our hemisphere turns its face to the sun and then turns its back.
The axis of the earth's revolution has shifted. The earth's center of gravity is changed. Once flowers grew in the arctic and there was snow in the tropic. There has been a redistribution of land and sea, the land crumbling into the sea, the sea swallowing the land. Ice and fire have fought for the possession of this planet. The chemical composition of it s different now from what it once was. Volcanoes once terribly alive are dead, not one throb of fiery pulse, not one breath of vapor-the ocean changing its amount of saline qualities. The internal

fires of the earth are gradually eating their way to the surfaces-upheaval and subsidence of vast realms of continent. Moravians in Greenland have removed their boat poles because the advancing sea submerged them. Linnaeus records that in 87 years a great stone was 100 feet nearer the water than when he wrote. Forests have been buried by the sea, and land that was cultured by farmer's hoe can be touched only by sailor's anchor. Loch Nevis of Scotland and Dingle bay of Ireland and the fiords of Norway, where pleasure boats now float, were once valleys and glens. Many of the islands of the sea are the tops of sunken mountains. Six thousand miles of the Pacific ocean are sinking. The diameter of the earth, according to scientific announcement, is 189 miles less than it was. The entire configuration of the earth is altered. Hills are denuded of their forests. The frosts and the waters and the air bombard the earth till it surrenders to the assault. The so called "everlasting hills" do not last. Many railroad companies cease to build iron bridges because the iron has a life of its

own, not a vegetable life or an animal

life, but a metallic life, and when that

life dies the bridge goes down. Oxida-

tion of minerals is only another term for describing their death. Mosses and seaweeds help destroy the rocks they deco-The changes of the inanimate earth only symbolize the moral changes. Society ever becomes different for better or worse. Boundary lines between nations are settled until the next war unsettles them. Uncertainty strikes through laws and customs and legislation. The characteristic of this world is that nothing in it is settled. At a time when we hoped that the arbitration planned last summer at The Hague, Holland, would forever dismantle the fortress the world has on hand two wars which are digging graves for the flower of English and American soldiery. From the presence of such geological and social and national and inter national unrest we turn with thanksgiv

ing and exultation to my text and find that there are things forever settled, but in higher latitudes than we have ever trod. "Forever, O Lord, thy word is set-Fate of Nations Settled. High up in the palace of the sun at least five things are settled-that nations which go continuously and persistently wrong perish; that happiness is the re sult of spiritual condition and not o earthly environment; that this world is a schoolhouse for splendid or disgraceful and then into the senior, and from that

arborescence and purity; that all who Bethlehem and Nazareth and Golgotha will be the subjects of a supernal felicity without any taking off. Do you doubt my first proposition-that nations which go wrong perish? We have in this American nation all the ele ments of permanence and destruction We need not borrow from others any trowels for upbuilding or torches for demolition. Elements of ruin-nihilism, infidelity, agnosticism, Sabbath desecration, inebriety, sensuality, extravagance,

fraud; they are all here. Elements of safety-God worshiping men and women by the scores of millions, honesty, benevolence, truthfulness, self sacrifice, industry, sobriety and more religion than

has characterized any nation that has ever existed; they are all here. The only question is as to which of the forces will gain dominancy-the one class as- for glory or perdition! cendant, and this United States government, I think, will continue as long as the world exists; the other class ascendant, and the United States goes into such small pieces that other govern-

ments would hardly think them worth picking up. Have you ever noticed the size of the cemetery of dead nations, the vast Greenwood and Pere le Chaise, where mighty kingdoms were buried? Open the gate and walk through this cemetery and read the epitaphs. Here lies Carthage, born 100 years before Rome, great commercial metropolis on the bay of Tunis, a part of an empire that gave the alphabet to the Greeks and their great language to the Hebrews; her arms the terror of nations, commanding at one time 16,000 miles of coast; her Hamilcar leading forth 30 myriads, or 300,000 troops; her Hannibal carrying out in manhood the oath he had taken in boyhood to preserve eternal ening monuments at Agrigentum a ghastly heap of ruins; Carthage, her colonies on every coast, her ships plowing every sea; Carthage-where are her splendors now All extinguished. Where are her swords? The last one broken. Where are her tow ers and long ranges of magnificent architecture? Buried under the sands of the Bagradas. As ballast of foreign ships much of her radiant marble has been carried away to build the walls of transmediterranean cathedrals, while other blocks have been blasted in modern times by the makers of the Tunis railway. And all of every mortal and immortal? Oh, this that great and mighty city and kingdom that the tourist finds today is here and It is not a theater on whose stage we are there a broken arch of what was once a 50 mile aqueduct. Our talented and gen-schoolhouse for splendid or disgraceful ial friend, Henry M. Field, in one of his matchless books of travel, labors hard to prove that the slight ruins of that city are really worth visiting. Carthage buried in the cemetery of dead nations. Not one altar to the true God did she rear. Not one of the Ten Commandments but she conspicuously violated. Her doom was settled in heaven when it was decid-

tion and kingdom that will not serve God shall perish. Tombs of Nations. Walk on in the cemetery of nations and see the long lines of tombs-Thebes and Tyre and Egypt and Babylen and Medo-Persian and Macedonian and Roman and Saxon heptarchy, great nations, small nations, nations that lived a year and nations that lived 500 years.

ed far back in the eternities that the na-

Our own nation will be judged by the same moral laws by which all other na-tions have been judged. The judgment day for individuals will probably come far on in the future. Judgment day for nations is every day, every day weighed, every day approved or every day condemned. Never before in the history of this country has the American nation been more surely in the balances than it is this minute. Do right, and we go up. Do wrong, and we go down. I am not so anxious to know what this statesman or

that warrior thinks we had better do with Cuba and Porto Rico and the Philippines as I am anxious to know what God thinks we had better do. The destiny of this nation will not be decided on vonder capitoline hill or at Manila or at the presidential ballot box, for it will be settled in heaven. Another thing decided in the same high place is that happiness is the result of spiritual condition and not of earthly en-

vironment. If we who may sometimes have a thousand dollars to invest find it such a perplexity to know what to do Stougs! Stougs! Stougs with it and soon after find that we invested it where principal and interest have gone down through roguery or panic, what must be the worriment of those having millions to invest and whose losses correspond in magnitude with their resources! People who have their three or four dollars a day wages are just as happy as those who have an income of \$500,000 a year. Sometimes happiness is seated on a footstool and sometimes mis ery on the throne. All the gold of earth in one chunk cannot purchase five minutes of complete satisfaction. Worldly success is an atmosphere that breeds the maggets of envy and jealousy and hate. There are those who will never forgive you if you have more emoluments or honor or case than they have. To take you down is the dominant wish of most of those who are not as high as you are. They will spend hours and days and years to entrap you. They will hover around newspaper offices to get one mean line

printed depreciating you. Your heaven is their hell. Warning Against Politics. A dying president of the United States said many years ago in regard to his lifetime of experience, "It doesn't pay." The leading statesmen of America in letters of advice warn young men to keep out of politics. Many of the most successful have tried in vain to drown their trouble in strong drink. On the other hand, there are millions of people who on departing this life will have nothing to leave but a good name and a life insurance whose illumined faces are indices of illumined souls. They wish everybody well. When the fire bell rings they do not go to the window at midnight to see if it is their store that is on fire, for they never owned a store, and when the September equinox is abroad they do not worry lest their ships founder in a gale, for they never owned a ship, and when the nominations are made for high political office they are not fearful that their name will be overlooked, for they never applied for office. There is so much heartiness and freedom from care in their laughter that when you hear it you are compelled to laugh in sympathy. although you know not what they are

When the children of that family as semble in the sitting room of the old homestead to hear the father's will read, they are not fearful of being cut off with sheathe the sword and spike the gun and a million and a half dollars, for the old man never owned anything more than the farm of 75 acres, which yielded only enough plainly to support the household They have more happiness in one month than many have in a whole lifetime Would to God I had the capacity to explain to you on how little a man can be happy and on how much he may be wretched! Get your heart right and all is right. Keep your heart wrong, and all is wrong. That is a principle settled in heaven. Another thing decided in that high

laughing about.

place is that this world is a schoolhouse or college for splendid or disgraceful We begin in the freshman lass of good or evil and then pass into the sophomore and then into the junior graduation; that with or without us the we graduate angels or devils. In many world is to be made over into a scene of colleges there is an "elective course," where the student selects what he wil are adjoined to the unparalleled One of study-mathematics or the languages or chemistry or philosophy-and it is an elective course we all take in the school house or university of this world. We may study sin until we are satu rated with it or righteousness until we are exemplifications of it. Graduate we a must, but we decide for ourselves the style of graduation. It is an elective course. We can study generosity until our every word and every act and every contribu tion of money or time will make the world better, or we may study meanness until our soul shall shrink up to a smallness unimaginable. We may, under God, educate ourselves into a self control that nothing can anger or into an irascibility that will ever and anon keep our face flushed with wrath and every nerve a-quiver. Great old schoolhouse of world in which we are all being educated

Beginning Active Life. Some have wondered why graduation day in college is called "commencement day" when it is the last day of college exercises, but graduation days are properly called commencement day. To al the graduated it is the commencement of active life, and our graduation day from earth will be to us commencement of our chief life, our larger life, our more tre mendous life, our eternal life. But what a day commencement day on earth is The student never sees any day like it At any rate, I never did. Old Niblo's theater in New York comes back to me. The gowned and tassel hatted professors behind us, and our kindred and friends before us and above us, and the air redolent with garlands to be thrown to us What a commencement day it was for all of us about to graduate! But mightien day will it be when we graduate from this world. Will it be hisses of condemnation or handelapping of approval? Will there be flung to us nettles or wreaths? Will it be a resounding "Come!" or a reverberating "Depart?" In the real college, before graduation and commencement comes examination day, and before our graduation and commencement will come examination. It will be asked what we have been doing, what we have learned under the tutelage of years of joy and sorrow, and under the teaching of the Holy Ghost are we educated for heaven. Have we done our best

with the curriculum of study put before world is not the terminus of a journey! enacting the tragic or comic. It is a Drovers and their Stock. All that is settled in heaven. Another thing decided in the high places of the universe is that this world, with or without us, will be made over into a scent of arborescence and purity. Do not think that such a consummation depends upon our personal fidelity. It will be done anyhow. God's cause does not go a-begging. If all the soldiers of Jesus Christ now living should recome
