HAHN'S ANTI-BILIOUS PILLS. Prefared (only) by H. L.F.E, 56 Maiden Lane, New York.

THIS Medicine has, for ten years post, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Cherleston and Savannah. The testinony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, un-der Providence, preserved their lives when in the most starning circumstances

Facts of this conclusive nature, speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our billious fevers, will prove an infallible preventive—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the succeed in restoring neutil, and frequently in cases estecancid desperate, and beyond the power of common remedies.

The operation of those pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every sge.

They are excellently a lapted to ear sy off superdinous bile, and prevent its moriou secretions—to restore and amend the appetite -produce a free perspiration, and thereby prevent colds, which are often of fatal con-sequences. A dose never falls to remove a sequences. A dose level have to remove a cold, if taken on its first appearance. They are celebrated for removing maintal costiveness—includes at the sum ach and head ache—and ought to be taken by all persons

on a change of comate.

They have been found remarkably efficaciout in preventing and curing disorders at-tendant on long voyages, and should be pro-cured, and carefully preserved for use by every scamen.

Certificate of Mr. William Devenney.

During the last nine years, I have been in the habit of using Habn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-achies or costiveness have repdered medicine necessary; in these cases a single dose has uniformly removed my head-ache, and has generally been found sufficient to remove every symptom of cold, if tak-en on its first appearance. Induced by the benefit received. I have for many years past recommended them to many of my friends. and I have the pleasure to inform you, they have invariably succeeded, in removing the

above complaints. Yours, &c. Wm. DEVENNEY, 145, Cherry street, New-York.

HAMILTON'S

Celebrated Worm-Destroying Lazenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the sto-

and from obstructions or fourness in the sto-mach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly com-plained of as operating with stoletice; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innount, and is mith in its ope-ration that it cannot also a loss observed pregnant lady, or the tendenest it fant of a week old, should no worns exist in the bo-ty, but will, with a train profiper, cleanse the stomeon and bowels of whatever is foul or oftensive, and thereby present the prothe stomen and borely prevent the pro-duction of worms and many fatal disorders. The lozenges are particularly efficacions in estraing offiall gross humors and eruptions, perish and binous complaints, and are the infest and militest purgative that can be used

on any occasion

A dose of this medicine given occasionally during the worm season, will effectually pre-tent the "romiting and purping of chil-dren," a dreadful disorder, which annually destroys the isands of the infant part of our citizens, it is likewise the mildest and most certain repeals, known, and has presented. citizens, it is likewise the mildest and most certain remedy known, and har restored to health and strength a guest number when in an advanced stage of this fatal complaint.—Particular and plans instructions are given for every part of the necessary treats on it such cases.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hart.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltimore, began about
12 months ago, to be grievously afflicted
with a tape-worm, which increased fast in
size and strength, so as to excite the most
horrid acusations by its writhing motions
and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused
such dreadful apprehensions as cannot be
described but by one in a similar situation;
his appetite declined rapidly, and with that
his atrength, so that he was unable to attend
to may business; when he heard of some exh.s strength, so that to say business; when he heard of some excellent cures performed by Hamilton's Worm f.ozenges, he took a large dose, which brought away shout 4 yards (now in possession of H. Lee); but arenewal of his pains soon convinced him that this monstrous soon convinced that the mediators rep-tile had recovered its first vigour. Applica-tion was made for more of the medicine, with advice, from which resulted the total expulsion of his formidable enemy, in seve-ral pieces, which he supposed to be six or

sight yands more. A few weeks have since elapsed, and Mr. Fuller is now in perfect health: The above facts are well known to a numerous circle of his feighbors, and he himself will gratify my who may wish to make further inquiries on tax subject.

Ahhough Hamiston's Worm Losenges produce such powerful effects, when necessary, yet they are perfectly innocent sad mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify: Their peculiar mildness is abundantly evident in the following cures of infants. infants.

Letter from Mr. Henry Ackerman, brick-layer, in Magazine-street, near Broadway,

New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often tormented with severe griping and terly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozinges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to received from this medicine, induced me to give a dose to a child of mire who mas pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health.

HENRY ACKERMAN

Dr. Hamilton's Grand Restorative,

Which the inventor confidently recom mends as an invaluable medicine for the spee-dy relief, and permanent cure of various complaints which result from dissipated pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution, the immoderate use of tea, frequent intoxication, or any destructive intemperance, the unskilfull or excessive use of inercury, the diseases peculiar to females at a certain period of life, bad layings in, ac.

By once using Lee's Sovereign Ointment. The proprietor informs those persons and families who are suffering under this disease (against the infection of which no person is safe) that if this ointment is used at night on going to bed it never fails to perform a cure by the following morning, as thousands who have used it during the last ten years can testify. The peculiar excellencies of this infallible remedy for the itch, over every other, are the certainty of the cure by a single application; the ingredients being so innocent as to be applied with perfect safety innocent as to be applied with perfect safety to the tenderest infa-t; and its being not only free from any offensive smell, but equally agreeable with the pleasentest pomatum Hahn's serve and genuine German Cern
