Artificial Mineral Waters

Artificial Mineral Waters

TO THE PUBLIC. of all the choicest bles ings bestored on man, that of health has ver been most duly app eciated. Without this, no other can be truly enjoyed, and with it most affection may find an alleviation. Whatever, there ore, is conducive to promote and increase this blessing, hash strong claims on public parronage and support. As tending to the object, Arti-ficial Mineral Waters [when proper, prepar-ed] have been found effectual, as w. It in their ed] have been found effectual, as will in their physical as moral tendency; affording both an agreeable and salutary beverage, which, whilst they increase or promote health, ofter a pleasing substitute for the pernicious use of ardent spirits, the inclination to which (from the exhibitrating effects of these Waters) is considerably lessened is entirely removed; being found to possess all the agreeable without their enervating or intoxic ting qualities.

This pursuit of this valued blessing has led many for ages past to resort to springs famed for their salutinous or resort to springs famed for their salutinous of resort to springs famed for their salutinous of resort to springs famed for their salutinous of the state of Chemistry, buth so far obviated this difficulty, and enabled art to excite nature by an exact imitation of

To submitting the above scheme to the public, the Managers will not attempt any eulogium on the importance or necessity of the object in view. They believe that, at this time, not a doubt exists in the mind of any well informed person, of the elicacy of the kine Pock as a saic and certain preventative of the Small Pox. The difficulty, and it might be added the impossibility, of preserving this remedy without the aid of an institution, (such as is intended to be established and supported by the presits arising from this Lottery) is also well known. But it is proper to observe, that this Institution not only contenu lates to preserve the genuine Vaccine Matter for the use of the citizens of this state, but also to give it, at all times, free of every capence, (with directions when required) to any of them who may have occasion to use it. To a d them in accomplishing objects such as these, the Managers feel confident of the liberal and prompt support of the public.
