In submitting the above scheme to the Do. 28,000
In submitting the above scheme to the public, the Managers will not attempt any culogium on the importance or necessity of the object in view. They believe that, at this time, not a doubt exists in the mind of any well informed person, of the efficacy of the Kine Pock as a sake and certain preventative of the Small Pex. The difficulty, and it might be added the impossibility, of preserving this renedy without the aid of an Institution, (satin as is intended to be established and supported by the prefits arising from this Lottry) is also well known. But it is proper to abserve, that this Institution not only contemplates to preserve the genuine Vaccine Matter for the use of the citizens of this sate, but also to give it, at all times, free of every expence, (with directions when required) to any of them who may have occasion to use it. To said them in accomplishing objects such as these, the Managers fel confident of the liberal and prompt supprt of the public.
