THIS Medicine has, for ten years past, THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventer's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Nortolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, unauriticed, who have reason to beneve that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more inference of a readining them.

could do.

It is not indeed presumptuously proposed as an intallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to earry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration; and thereby prevent colds, which are often of fatal consequences. Certificate of Mr. Wittam Benefiney.
Driving the last nine years, I have been in the miest of using Irahu's Anti-Billous Pills, prepared by the late Mr. Lee, whenever colds, head-achies or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my head-achie, and has generally been found sufficient to remove every senation of cold, if taken ache, and has generally been found sinds-ent to remove every symptom of cold, if tak-en on its first appearance. Induced by the benefit received, I have for many years past recommended then to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. HAMILTON'S

Celebrated Werm-Destroying Lezenges,

Celebrated Werm-Destroying Lezenges, Which there is reason to believe, have, within ten years past, cured upward of two hardred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar trite, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to errigage and constitution. It contains nothing but what is perfectly knocent, and is mild in its operation that it cannot injure the most delicate eregnant lady, or the temberest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fail discoularthe stome and howels of whatever is foul or oftensive, and thereby prevent the production of worms and many fatal disorders. The lozences are particularly efficacious in carrying off all gross humors and eruptions, leverish and billous complaints, and are the salest and mildest purgative that can be used more or excession.

on any consion.

A dose of this medicine given occasionally during the warm season, will effectually present the "somiting and purging of children," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is thewire the mildest and most cost in recordy known, and has restered to health and according a great number when in an advanced stage of this fatal complaint. un advanced stage of this fatal complaint.-Paraction and plain instructions are give or every part of the necessary treatment in

Children generally take this medicine with pagerness, howing a pleasing appearance, and an agreeable taste.

TAPE-WORM.

TAPE-WORM.

Mr. Saisuel Fuller, inn-keeper on the Hartfood, ten miles from Baltimare, began about 12 months age, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most horid sensations by its writhing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapidly, and with that his strength, so that he was unable to attend his strength, so that he was unable to attend to any husiness; when he heard of some ex-cellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in posses-sion of H. Lee); but a renewal of his pains soon convinced him that this monstrous rep-tile had recovered its first vigour. Applica-tion was made for more of the medicine, with advice, from which resulted the total expulsion of his formidable enemy, in seve-ral pieces, which he supposed to be six or his strength, so that he was unable to attend

eight yilds more. A few weeks have after elapsed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries to the subject.

Although Hamilton's Worm Lozenges produce such ponerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large dosef as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the fellowing cures of infants.

Letter from Mr. Henry tAckerman, bricklayer, in Magazine-street, near Bruadway,

New-York.

It would be ungrateful were I to withhold my testimony in layor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indiaposed, and latterly often tormented with severe griping: d pains in the bowels, troubled with offensive breath, with violent feverish fit, and other obvious symptoms of worms: but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. Tha first evacuated twelve or thirteen feet of a tape worm, two other doses wore taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly: it produced the same good effect in this instance, expelied a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good New-York. It would be ungrateful were I to withhold long, and at the same time restoring a good long, and at the state of health.
HENRY ACKERMAN.

safe) that if this ointment is used at night on going to bed it never fails to perform a cure by the following morning, as thousands who have used it during the last ten years can testify. The peculiar excellencies of this infallible remedy for the itch, over every other, are the certainty of the cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infast; and its being not only free from any offensive smell, but equally agreeable with the pleasantest permatum. ly agreeable with the pleasantest pomatum
