THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, puticular y in Baltimore, Petersburg, Richmond, Norfolk Edeston, Wilmington, Charleston and in banimore, retersburg, Richmond, Nor-folk, Edenton, Wilmington, Charleston and Savangah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, un-der Providence, preserved their fives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pumpous eulogy founded on mere assertion could do.

pompous eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive expensence, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our billous fevers, with prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restories health, and frequently in cases exteemed desperate, and beyond the power of common reaccides.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

This medicine bears no analygy whatever to others of similar title, so commonly complained of as operating with sintence; on the centrary, a particular excellence of this remedy is its being suited to every age and constitution. It centains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant halp, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or gripping, cleanse dy, but will, without pain or griping, cleanse the stemach and bowels of whatever is foul or effective, and thereby prevent the pro-duction of vorms and many fatel disorders. The lozences are particularly efficacious in estrying effeat gross humors and eruptions, feverith and billious complaints, and are the on any occasion

on any occasion. A dose of this medicine given occasionally during the warreneason, will effectually prevent the "tomiting and purging of children," a decadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the milliest and most certain remedy known, and has restored to brail, and strength a great number when in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the accessary treatment in such cases.

Children generally take this medicine with eagerness; having a picasing appearance, and an agreeable taste.

TAPE—WORM.

Mr. Samuel Fuller, inn-keeper on the Hart-feed, ten miles from Baltimore, began about 12 nouths ago, to be grievously afflicted with a tape-worm, which increased fast in size sud strongth, so as to excite the most havid sensations by its writing motions and intolerable pains, resembling the gnaw-ing and teating of his bowels, which depriv-cel him of his necessary sleep, and caused ed him of his necessary sleep, and caused of him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appatite declined rapidly, and with that his strength, so that he was unable to attend to any husiness; when he heard of some excellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in poses) sion of H. Lee); but a renewal of his pairs soon convinced him that this monstrous reptile had recovered its first vigour. Application was made for more of the medicine, with advice, from which resulted the total with advice, from which resulted the total expulsion of his formidable enemy, in seve-ral pieces, which he supposed to be six or

eight yards meta. A feet weeks have since elapsed, and Mr. Pullet is now in perfect health. The above finit are well known to a nuncrous eircle of his neighbors, and he himself will gratify any who may wish we make further inquiries en the subject.

Although Hamilton's Worm Lozenge's produce such powerful ellects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of infants.

etter from Mr. Henry Ackermen, brick-layer, in Magazine-street, near Brundway, New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often termented with severe griping and pains in the bowels, troubled with offensive breath, with votent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like akins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inclies different kind, from niec to twelve inches ng, and at the same time restoring a good state of health.
