It is not indeed presumptionally proposed as an infalmole cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bill is fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mill, so as to be used with safety by all persons in every situation, and of every age.

They are excellently a lapted to sarry off supertinous bile, and prevent its morbid secretions—o restore and sment the appetite—produce a free perspiration, and thereby prevent cells, which are often of fatal consequences. It would be ungrateful were I to withhold at would be ungrateful were I to withhold my testimony in tavor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and lat-terly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommend-ed in cases similar to mine. I determined on ed in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen seet of a tape worm, two other doses were taken, which brought away a quantity of matter, broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible bruefit I received from this medicine, induced me to give a dose to a child of mine who was ningive a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health.
