## LEE'S

### Worm-Destroying Lozenges.

THIS Medicine, which is as innocent and mild as it is certain and efficacious in its operation, cannot injure the youngest infant, should no worms exist in the body; but will without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal diseases.  
Among the symptoms attending worms, are disagreeable breath, especially in the morning—bad and corrupted gums, itching at the nose and about the seat—convulsions and epileptic fits, and sometimes privation of speech—starting and grinding of the teeth in sleep—irregular appetite, sometimes loathing food and sometimes voracious—purging, with limy and fetid stool—vomiting—Large and hard belly—pains and sickness at the stomach—pains in the head and thighs, with loss of spirits—slight fever, with small and irregular pulse—a dry cough—excessive thirst—sometimes pale and an eddy countenance, and sometimes the face bloated and flushed.  
Persons afflicted with any of the above symptoms, should have immediate recourse to Lee's Worm-Destroying Lozenges, which have been constantly a tried with success in all complaints similar to those above described.

From the many cases of cures that daily come to our knowledge, we have selected the following:  
**Messrs. Mich. Lee & Co.**  
Observing that my son, six years of age, was troubled with difficulty in breathing, (sometime frequently rising in his throat) restlessness at night, loss of flesh, &c. From those symptoms I was confident he had worms, and having procured a box of Lee's Worm-Destroying Lozenges, the first dose expelled twenty-three large worms, which gave him immediate relief—He now enjoys a good state of health, and I believe I can from experience say, that Lee's Lozenges, are the most efficacious remedy for worms now in use.  
**THOMAS PETERS,**  
of the late firm of Peters & Johnson.  
Baltimore, July 1, 1810.

**Messrs. Mich. Lee & Co.**  
A child of Mr. Henry Grimes, near Mr. E. Betts's nail factory, was for upwards of 18 months afflicted with sickness, which symptoms were restlessness at night, debility, pains in the legs, loss of flesh, &c. After having the advice of an eminent physician, and trying a variety of medicines without success, the afflicted parents were advised to try Lee's Worm-Destroying Lozenges, which expelled during the operation of the medicine, a great quantity of large worms, some of which measured 12 inches—the child now enjoys a good state of health.  
Baltimore, June 8, 1809.

**Messrs. Mich. Lee & Co.**  
You are at liberty to publish the astonishing cure performed by your Lozenges on my son, ten years old, who was afflicted with fever, pain in his side, and a continual headache, which reduced him so low that he was unable to sit up. One of my neighbors advised me to use your Lozenges, which has had the happy effect of restoring him to a better state of health than he has enjoyed for several years, in the short space of 17 days.  
**JOHN KELLY,**  
Fell's-street.

**Messrs. Mich. Lee & Co.**  
My son, five years old, has for some time past been very unhealthy, having fever, headache, loss of appetite. Hearing of the many cures performed by your Worm Lozenges, I was induced to give them a trial. The effect was beyond my expectation, as a large quantity of small worms was expelled; hundreds of them were alive for some time after.  
**JOHN KENNEDY,**  
Potter-street.

Edward Higgins, South-street, Baltimore, administered Lee's Lozenges agreeable to the directions, to his child of 14 months old—the first of which expelled a worm measuring 20 inches long and near half an inch thick; the second dose expelled another 16 inches long and the same thickness, and a quantity of small worms mixed with slime, &c. The child enjoys a good state of health.

**Prevention better than Cure.**  
For the Prevention and Cure of Bilious and Malignant Fevers, is recommended

**HANN'S ANTI-BILIOUS PILLS.**  
Prepared (only) by **H. LEE,** 56 Maiden Lane, New York.

THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been attended, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colic, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual costiveness—sickness at the stomach and head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured, and carefully preserved for use by every seaman.

**Certificate of Mr. William Devenney.**  
During the last nine years, I have been in the habit of using Hann's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my headache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. Yours, &c.

**WM. DEVENNEY,**  
145, Cherry-street, New-York.

**HAMILTON'S**  
**Celebrated Worm-Destroying Lozenges,**  
Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, fevers, and without complaint, and are the safest and mildest purgative that can be used on any occasion.

A dose of this medicine given occasionally during the warm season, will effectually prevent the vomiting and purging of children—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Cases of Cures, selected from thousands, the authenticity of which any person may ascertain, either by letter or personal application; not being performed in Europe, nobody knows where—but at home.

**TAPE-WORM.**  
Mr. Samuel Fuller, inn-keeper on the Hart-ford, ten miles from Baltimore, began about 12 months ago, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which depriving him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapidly, and with that

his strength, so that he was unable to attend to any business; when he heard of some excellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in possession of H. Lee), but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first vigour. Application was made for more of the medicine, with advice, from which resulted the total expulsion of his formidable enemy, in several pieces, which he supposed to be six or eight yards more. A few weeks have since elapsed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the subject.

Although Hamilton's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, brick-layer, in Magazine-street, near Broadway, New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and lately often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent fevers, fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health.

**HENRY ACKERMAN.**

**Dr. Hamilton's Grand Restorative,**

Which the inventor confidently recommends as an invaluable medicine for the speedy relief, and permanent cure of various complaints which result from dissipated pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution, the immoderate use of tea, frequent intoxication, or any destructive intemperance, the unskillful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad layings, &c.

And is proved by long and extensive experience to be absolutely unparalleled in the cure of nervous disorders, consumption, loss of spirits, loss of appetite, impurity of the blood, hysterical affections, inward weakness, violent cramps, the stomach and back, indigestion, melancholy, gout in the stomach, pains in the limbs, relaxations, involuntary emissions, seminal weaknesses, obstinate pleets, fluor albus, (or whites) impotency, barrenness, &c. &c.

**WELL CURED**

By once using Lee's Sovereign Ointment. The proprietor informs those persons and families who are suffering under this disease (against the infection of which no person is safe) that if this ointment is used at night on going to bed it never fails to perform a cure by the following morning, as thousands who have used it during the last ten years can testify. The peculiar excellencies of this infallible remedy for the itch, over every other, are the certainty of the cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infant; and its being not only free from any offensive smell, but equally agreeable with the pleasantest pomatum.

**Intelligence Office.**

The convenience of such an establishment in a large city like this, can be readily appreciated, from the convenience which attends the want of it. Moved by this consideration the subscriber informs the citizens of Baltimore, that he will immediately open a general **Intelligence Office,** at the corner of the Fish Market and Marsh Market, in the house lately occupied by George W. Miller, where he will provide himself with means of procuring places for servants, and servants for places; of giving information respecting animals strayed; and of furnishing intelligence relative to rare and unusual articles of merchandise or traffic; together with such other articles of intelligence as interest the farmer coming to market, the citizen resident in town, or the stranger who may come hither by land or water.

Terms will be cheap and accommodating. Persons wishing to have their animals advertised, may have it done with any letter or letters, on the shortest notice, by

## FOR SALE,

A NEGRO WOMAN of excellent character, about 21 years of age. She is expert at cooking and a fine industrious, honest, sober and good disposition.

On no account would she be sold, but her present owner being about to move to an adjacent state, is prevailed by the laws of that state to introduce her here.

It would be desirable that she should be sold in Baltimore, but on no account will she be sent out of the state.

It is expected that whoever may purchase will give bond, with a curity, if required, that she shall not be sold to any of the regular traders in human flesh.
