TAPE-WORM.

Mr. Samuel Fuller, final teper on the Hartford, ten miles from Baltimore, began about 12 months; ago, to be grievously afficted with a tape-aoriu, which increased first in size and strength, so as to excite the missing and tearing of his bowels, which deprived nim of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapelly, and with that his strength so that he was unable to attend to any business; it when he bezardof some excellent corresportanted by Hamilton's Worm Lozenges, he took a large, close, which brought away shout 4 yards (now in possession of His-Lee); but a rene wal of his painer soon convinced him that this monstraus repairle had recovered its first vigour. Al hough Hamilton's Weem Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the luman body, even when taken in large doles as Mr. Fuller will testify. Their peculiar middless is abundantly evident in the softowing cures of infants.

Letter from Mr. Henry Ackerman, brick-

It would be uncrateful were I to withhold my testimony in tayor of Hamdson's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and lats and 6 years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with officasive treath, with violent feverish fits, and other obvious symptoms of worms; but frequently leaving your Worm Lozer ges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen fect of a tape worm, two other doses were taken, which brought away a quantity of matter broken like ikins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 fect. The almost incredible benefit I received from this medicine, induced me to feet. The almost incredible benefit a re-ceived from this medicine, induced me to give a done to a child of mine who was pin-ing and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of mealth
