Prevention better than Cure. For the Prevention and Cure of Bilious and Malignant Fevers, is recommended HARRIS'S ANTI-BILIOUS PILLS. Prepared (only) by H. L. E. K., 56 Maiden Lane, New York.

THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age. They are excellently adapted to early or superficial bile, and prevent its morbid secretion—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequence. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual constipation—irregularity at the stomach and heart—ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured, and carefully preserved for use by every seaman.

Certificate of Mr. William Devenney. During the last nine years, I have been in the habit of using Harris's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my headache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. Yours, &c.

Wm. DEVENNEY, 145, Cherry-street, New-York.

HAMILTON'S Celebrated Worm-destroying Lozenges,

Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to other of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing, but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleanse the stomach and bowels of whatever is food or offensive, and thereby prevent the production of worms and many fatal disorders.

The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

A dose of this medicine given occasionally during the warm season, will effectually prevent the arising and purging of children's dreadful disorders, which annually destroy thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number, when in an advanced stage of the fatal complaint.

Particular and plain directions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Cases of Cures, selected from thousands, the authenticity of which many persons may ascertain, either by letter or personal application, to the following performance in European, probably knows where it is to be had.

Tape-Worm. Mr. Samuel Fuller, from Kenton on the Hill in Ford, ten miles from Baltimore, began on the 12th month ago, to be grievously affected with a tape-worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motion, and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapidly, and with that his strength so that he was unable to attend

to any business; when he heard of a new excellent cure performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in possession of H. Lee); but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first vigour. Application was made for more of the medicine, with advice, from which resulted the total expulsion of his formidable enemy, in several pieces, which he supposed to be six or eight inches long. A few weeks have since elapsed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on this subject.

Although Hamilton's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, brick-layer in Magazine-street, near Broadway, New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and lately often tormented with acute griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently bearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pinning and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health.

HENRY ACKERMAN.

Dr. Hamilton's Grand Restorative,

Which the inventor confidently recommends as an invaluable medicine for the speedy relief, and permanent cure of various complaints which result from disordered pleasures, juvenile indiscretions, residence in climates unfavorable to the constitution, the immediate use of tea, frequent intoxication, or any destructive intemperance, the unskillful or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad laying in, &c.

And is proved by long and extensive experience to be absolutely unparalleled in the cure of various disorders, such as nervous weakness of spirits, loss of appetite, in purity of the blood, hysterical affections, inward weakness, violent cramps in the stomach and bowels, indigestion, melancholy, great in the stomach, pains in the limbs, relaxations, involuntary emissions, seminal weakness, obstinate gleet, morbus albus, (or whites) impotency, barrenness, &c. &c.

By once using Lee's Sovereign Ointment. The proprietor informs those persons and families who are suffering under this disease (against the infection of which no person is safe) that if this ointment is used at night or going to bed it never fails to perform a cure by the following morning, as thousands who have used it during the last ten years can testify. The peculiar excellencies of this infallible remedy for the itch, over every other, are the certainty of the cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infant; and its being not only free from any offensive smell, but equally agreeable with the pleasantest ointment.

Harris's true and genuine German Corn Plaster, An infallible remedy for Corns; speedily removing them root and branch, without giving pain.

Was Committed

To the jail of Baltimore county, as a runaway, on the 11th of July, a Middle-aged man who calls himself Nancy Thompson, about 30 years of age, 5 feet 4 inches high, with made, slightly pasted to the small pox, has a scar on the left arm, and one over her left eye—she is free, is about 13 years old. The owner is hereby required to come and release her according to law.
