GENUINE MEDICINES,

of the late Richard Lee, jun. as propared by the original recipes in possession of his Wa-dew in New-York, by whom they are suppli-ed, and without whose signature none are

Prevention better than Cure.

Prevention better than Cure.
For the Prevent and Cure of Biliess and Malignant Ferers, is recommended HAHN. ANTI-BILIOUS PILLS. Prepared (only) by H. L.B., 56 Maiden Lane, New York.

THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edeaton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been addoced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarning circums'ances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pumpous enlogy founded on mere assertion could do.

It is not indued presumptuously proposed as an intallible cure, but the inventor has every possible reason that can result from ratemiste experience, for believing that a doze of these pills, taken once every two weeks, during the preval need of thiose diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

succeed in reatoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently a lanted to sarry off supfirmous bile, and prevent its morbid secretion—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose merer fails to remove a cold, if taken on its first appearance. They are celebrated for removing hapitual coativeness—sickness at the stomach and healt

are celebrated for removing habitual costiveness—sickness at the stomach and head ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in proventing and curing disorders attendant on long voyages, and should be procured, and carefully preserved for use by every sension.

Certificate of Mr. William Devenney.

During the last nine years, I have been in the habit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-acles or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my head-acle, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. Yours, &c.

WM. DEVENNEY,

145, Cherry-street, New-York.

HAMILTON'S

Celebrated Worm-Destroying Lozenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints, an aiming from worms, the sto-

every age, and in every situation, or various dangerous complaints arising from worms, and from obstructions or founces in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the conwary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infact of a week old, should no worms exist in the body, but will, withoutpain or griping, cleanse the stomach and bowels of whatever is foul the stomach with the prothe storeson and bowels of whatever is foul or offensive, and thereby prevent the pro-duction of worms and many fatal disorders. duction of worms and many tates disorders.
The lozenees are particularly embasions in carrying oif all gross humors and eruptions, feverish and billous complaints, and are the satest and mildest purgative that can be used

satest and mildest purgative that can be used on any occasion. A dose of this medicine given occasionally during the warra season, will effectually prevent the "vomiting and purging of children," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is like wise the mildest and most certain remody known, and has restered to health and strength a great number when in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable teste.

Cases of Gures, selected from thousands, the authenticity of which any person may ascertain, either by letter or parsonal application; not being performed in Europe, nobody knows where—but at home.

TAPE—WORM.

Mr. Samuel Fuller, inchessors. Cases of Cures, selected from thousands,

Mr. Samuel Fuller, inn-keeper on the Hart ford, ten miles from Baltimore, began about 12 months ago, to be grievousty afflicted with a tape-norm, which increased fest in with a tape-worm, which increased fest in size and strength, so as to exact the most horrid sensations by its wrishing motions and intulerable pains, resembling the mawing and tearing of his bowels, which deprived him of his pecessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapidly, and with that his strength, so that he was unable to attend

to any business; when he heard of some excellent eures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 6 yard, inow in possession of H. Lee); but a rene sal of his pains soon convinced him that this sonstrous repatile had recovered its first vigiour. Application was made for more of the medicine with advice, from which resulted the tail expulsion of his formidable enemy, in several pieces, which he supposed to be six or eight y rds mere. A few weeks have since elapsed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbors, rnd he himself will gratity any who may wish to make further inquiries on the subject.

Although Hamilton's Worm Lezenges produce such powerful effects, when necessary, yet they are perfectly innuct it and mill in their operation on the human bidly, event when taken in large doses as Mr. Fuller will testify. Their peculiar middless is abundantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, brick-layer, in Magazine-street, near Broadway,

New-York.

It would be ungrateful were I to withhold my testimony in iavor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often tormented with severe griping a d pains in the bowels, troubled with offensive breath, with voient feverish fits, and other obvious symptoms of worms; but frequently hearing your Worn. Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last rescure. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voiled at different times, must in the whole have excerded 40 feet. The almost increditle benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly: it produced the same good effect in this instance, expelled a worn of a different kind, from hime to twelve inches leng, and at the same time restoring a good It would be ungrateful were I to withhold

long, and at the same time restoring a good state of health.

HENRY ACKERMAN.

Dr. Hamilton's Grand Restorative, Which the inventor confidently recom-nends as an invaluable medicine for the spee-

Which the inventor confidently recommends as an invaluable medicine for the speedy relief, and permanent cure of various complaints which result from dissipated pleasures, juvenile indiscretions, residence in climates undavorable to the constitution, the immederate use of tea, frequent intoxication, or any destructive intemperance, the unskilfull or excessive use of mercury, the diseases peculiar to females at a certain period of life, bad layings in, &c.

And is proved by long and extensive experience to he absolutely unparameted in the cure of nervess disorders, consumptions, lowners of spirits, loss of appetite, in purity of the blood, hysterical affections, inward weakness, violent cramps in the stomach, pains in the limbs, relaxations in soluntary emissions, seminal weaknesses, obstinate gleets, fluor albus, (or whitea) impotency, barrenness, &c. &c.

By once using Lee's Sovereign Olutinent. The proprietor informs those persons and families who are suffering under this disease (against the infection of which no person is saie) that if this ointment is used at highten engoing to bed it never fails to perform a cure by the following morning, as thousands who have used if during the last ten years can testify. The pecultarj excellencies of this infallible remedy for the itch, over every other, are the certainty of the cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infant; and its being nationly free from any offensive smell, but equally agreeable with the pleasantest pematum.
