Prevention better than Cure. For the Prevention and Cure of Bilious and Malignant Ferent, is recommended HAHN's ANTI-BILIOUS PILLS.

Prepared (only) by H. LEB, 56 Maiden Lane, New York.

THIS Medicine has, for ten years past, been attende: with a degree of success nighly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly the United States, particularly the United States, particularly the United States and Normal Normal Particular Particular States and Normal Normal Particular States and Normal Norm in Baltimore, Petershurg, Richmond, Nor-tolk, Edenton, Wilmington, Charleston and Savannah. Facts of the conclusive nature, speak more in byour of a medicine than columns of omnous eulogy founded on re re assertion

infinous eulogy founded on retre assertion could do.

It is not indeed presumptuously proposed as an infalliole care, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restring lealth, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of twee pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently a lapted to sarry off suphiliaous bile, and prevent its morbid secretion—to restore and amond the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose tweer fails to remove a cold, if takea on its first appearance. They are calchraged for removing habitual costions—itchness at the stomach and head

Celebrated Worm Destroying Luzenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the sto-

This medicine bears no analogy whatever This medicine bears no analogy whaterer to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operationthat it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body by the property of the pr dy, but will, without pain or griping, cleansed the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacions in estrying oil all gross humors and eruptions, feverish and billious complaints, and are the safest and mildest purgative that can be used

A dose of this medicine given occasionally A dose of this medicine given occasionally during the warm season, will effectually prevent the "voniting and purging of children" a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the necessary treatment in Particular and plain instructions are given for every part of the necessary treatment in

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Cases of Gures, selected from thousands, the authenticity of which any person may ascertain, either by letter or personal application; not being performed in Europe, nobody knows where—but at home.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hart. ford, ten miles from Baltimore, began about ford, ten miles from pattinine, began and re-12 months ago, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most borrid sensations by its writing motions and intolerable pains, resembling the grawing and tearing of his bowels, which depriving a supplier of the second se and intolcrable pains, feedbash and the griv-ing and tearing of his bowels, which depriv-ed him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar shuation; his appetite declined rapidly, and with that his strength, so that he was unable to attend

to any bariners t with be beard of some excellent curs performed by Hamilton's Worm Lozenges, he took, y large does, which brought away shout 6 yands frow in possession of H. Lee); but a renewal of his pains soon convinced him that this monatrous reptile had recovered its first vigour. Application was made for more of the medicine with advice, from which resulted the total dipulsion of his fornidable enemy, in several pieces, which he supposed to be six or life yould more. A few weeks have since its wall more. A few weeks have since its wall more. A few weeks have since its wall more field? The above fists are well known to a musically differently any who may wish to make finther houries on the subject.

Although Maintion's Worm Lozenges produce such the price perfectly innocent and mild in their operation on the human body, even when takeful in large doses as Mr. Fuller will sentify. Their pecclier mildness is abandantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, brick-layer, in Magazind-street, near Broadway,

New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges, I had been between 5 and 6 years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive hearth, with violent fewerish fits, and other breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lezenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inclus different kind, from nine to twelve inclus-long, and at the same time restoring a good state of health.
