MEASURES. Lee & Co.
The high opinion I have of your Bilious Pills, and a desire to make known their utility for the benefit of mankind, I wish you to publish the following:

For two months past, I have been afflicted with violent distress at the stomach, an inclination to vomit, and loss of appetite—by taking two doses of your Pills, I am restored to a perfect state of health, which I ascribed to your Pills, and which was attended with the same good effects, being now able to attend to my domestic concerns. In my opinion, this medicine is unequalled in stomach and bowel complaints, not being attended with that griping pain, common to other medicines.

LEE'S

Worm-Destroying Lozenges.

THIS Medicine, which is as innocent and mild as it is certain and efficacious in its operation, cannot injure the youngest infant, should no worms exist in the body; but will without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders.

MEASURES. Lee & Co.
Observing that my son, six years of age, was troubled with difficulty in breathing, (something frequently rising in his throat) restlessness at night, loss of sleep, &c. From these symptoms I was convinced he had worms, and having procured a box of Lee's Worm-Destroying Lozenges, the first dose expelled twenty-three large worms, which gave him immediate relief—he now enjoys a good state of health, and I believe I can from experience say, that Lee's Lozenges are the most efficacious remedy for worms now in use.

THOMAS PETERS,

of the late firm of Peters & Johnson.

Baltimore, July 1, 1810.

MEASURES. Lee & Co.
A child of Mr. Henry Grimes, near Mr. E. Berta's nail factory, was for upwards of 13 months afflicted with sickness, the symptoms were restlessness at night, debility, pains in the legs, loss of flesh, &c. After having the advice of an eminent physician, and trying a variety of medicines without success, the afflicted parents were advised to try Lee's Worm-Destroying Lozenges, which expelled during the operation of the medicine, a great quantity of large worms, some of which measured 12 inches—the child now enjoys a good state of health.

Baltimore, June 8, 1810.

EDWARD HIGGINS, South-street, Baltimore, administered Lee's Lozenges agreeable to the directions, to his child of 14 months old—the first of which expelled a worm measuring 20 inches long and near half an inch thick; the second dose expelled another 16 inches long and the same thickness, and a quantity of small worms mixed with lime, &c. The child enjoys a good state of health.

LEE'S ELIXIR.

A sovereign remedy for colds, obstinate coughs, catarrhs, asthma, sore throats, and approaching consumptions.

MEASURES. Lee & Co.
You are at liberty to use my name in the recommendation of Lee's Elixir, as from repeated trials I have found it an excellent remedy for colds, coughs, &c.

MEASURES. Lee & Co.
I was attacked with a most violent cold, a severe cough and pains in the breast, which continued to grow worse; during which my appetite failed, and my voice altered so much that it was with the utmost exertion I could pronounce a single sentence louder than my breath. Some of my friends having observed to me that much good had been done by the use of Lee's Elixir, advised me to procure a bottle of Lee's Elixir, and I accordingly did—and to those persons acquainted with the merits of this medicine, it will appear astonishing that three doses should remove the pains in my breast, and the use of one bottle restored me to perfect health.

Thousands can testify of their being cured by these Drops after the bark and every other medicine has proved ineffectual; and not one in a hundred has had occasion to take more than one, and numbers not a half a bottle.

MEASURES. Lee & Co.
I think it my duty to inform you, that from experience I am convinced your Ague Drops is an infallible remedy. My little son was violently afflicted with Ague and Fever—he received attendance of an eminent physician called—I was next advised to try the country A.V. which also failed, and it appeared to all
