For the Psevention and Gwe of Bilions and Malignass Freers, is recommended H. HN's ANTIBLIOUS PILLS.

Prepared (only) by H. LBE, 56 Maiden Lane, New York.

THIS Medicine has, for ten years park, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Bahimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

suid do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the preval-nce of our billous fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperates and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to early off superiluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual constituences—airkness at the stomach and head It is not indeed presumptuously proposed

They have been found remarkably efficaci-

ous in preventing and curing disorders at-tendant on long voyages, and should be pro-cured, and carefully preserved for use by

Certificate of Mr. William Devenney.

During the last nine years, I have been in the habit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my head-ache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they Certificate of Mr. William Devenney. and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. HAMILTON'S Celebrased Worm-Destroying Lozenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of

every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or fourness in the atomach and bowels.

and from obstructions or retiness in the stormach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with vicle ce; cn the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderes; infant of a week old, should no worms exist in the bedy, but will, without pain or griping, cleanse the stomach and bowels of whatever is follor offensive, and thereby prevent the production of worms and many fastal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and billous complaints, and are the safest and middest purgative that can be used on any occasion.

on any occasion.

A dose of this medicine given occasionally during the warm season, will effectually prevent the "vomiting and purging of ckildren," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mil'est and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with esgerness; having a pleasing appearance, and an agreeable taste.

TAPE—WORM.

Mr. Samuel Fuller, ian-keeper on the Hartford, ten miles from Baitimore, began about 12 months ago, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and intolerable pains, resembling the grawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as eannot be described but by one in a similar situation; his appetite declined rapidly, and with that has strength, so that he was unable to attend to any business; when he heard of some excellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in possession of H. Lee); but a renewal of his pains soon convinced him that this monstrous represented the strength as the strength as a sent this pains soon convinced him that this monstrous represented the strength as the strength as a sent of his pains soon convinced him that this monstrous represented the strength and the strength as a sent of his pains soon convinced him that this monstrous represented the strength as the strength as a sent of the strength as a sent of the sent of the strength and the strength as a sent of the strength as brought away about 4 yards (now in possession of H. Application was made for more of the medicine, with advice, from which resulted the total expulsions of his formidable enemy, in several pieces, which he supposed to be six or eight yards more. make further liquices as the subject.
Although Manning's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the humas body, even-when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abuhantly evident in the following cures of infents.

Letter from Mr. Henry Ackerman, brick-layer, in Magazinc-atract, near Broadway, New-York.

New-Tork.
It would be ungrateful were I to withhold my testimony in twoe of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently bearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. This ed in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I research from this wedicine, induced me to feet. The almost incredible benefit I re-ceived from this medicine, induced me to give a dose to a child of mine who was pin-ing and sickly t it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve incress long, and at the same time restoring a good state of health.
