THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Nor-Charleston and Wilmington, Charleston and folk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, un-der Providence, preserved their lives when

in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pumpons eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed to include the proposed to be included to the inventor has

as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases este-med desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to sarry off superfluous bile, and prevent its morbid so-cretions—to restore and amend the appetite—produce a free perspiration, and thereby

HAMILTON'S

Celebrated Worm-Destroying Lozenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the sto-

This medicine bears no analogy whatever to others of similar title, so commonly com-pained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operration that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the pro-duction of worms and many fata, disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used

A dose of this medicine given occasionally during the warm season, will effectually pre-vent the "vomiting and purging of chil-dren," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.— Particular and plain instructions are given for every part of the necessary treatment in

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Mr. Samuel Fuller, inn-keeper on the Hart. Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltimore, began about
12 months ago, to be gricvously afflicted
with a tape-worm, which increased fast in
size and strength, so as to excite the most
horrid sensations by its writhing motions
and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused
such dreadful appreheasions as cannot be
described but by one in a similar situation; described but by one in a similar situation; his appetite declined rapidly, and with that his strength, so that he was unable to attend his strength, so that he was unable to attend to any business; when he heard of some ex-cellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in posses-sion of H. Lee); but a renewal of his pains soon convinced him that this monatrous reptile had recovered its first vigour. Applies-tion was made for more of the medicine, with advice, from which resulted the tota. expulsion of his formidable enemy, in several pieces, which he supposed to be six or eight yards more. A few weeks have since

health: The above facts are well knows to a ministrous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the subject.

Al.hough Hamilton's Worm Lozzages produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of infants.

It would be ungrateful were I to withhold
my testimony in favor of Hamilton's Worm
destroying Lozenges. I had been between
5 and 6 years part much indisposed, and latterly often townented with severe griping and
pains in the 'bowels, troubled with oftensive
hearth with winest fewerich fire, and other breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a table were twent two other does were taken. tape werm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I re-ceived from this medicine, induced me to give a dose to a child of mine who was pin-ing and sickly; it produced the same good effect in this instance, expelled a worm of a different kind from nine to sweets inches different kind, from nine to twelve inches long, and at the same time restoring a good state of health.
