THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in esch of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

HAMILTON'S

Celebrated Weem-Destroying Lozenges,
Which there is reason to believe, have,
within ten years past, cured upward of two
hundred thousand persons of both sexes, of
every age, and in every situation, of various
dangerous complaints arising from worms,
and from obstructions or foulness in the stomach and bowels.
This medicine bears no analogy whatever

mach and bowels.

This medicine bears no analogy whatever to others of similar title, so eximmonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it exanot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or oliensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in duction of worms and many tatal manufacts. The lozenges are particularly efficacions in carrying off all gross humors and eruptions, fererish and bilious complaints, and are the safest and mildest purgative that can be used

on any occasion on any occasion.

A dose of this medicine given occasionally during the warm season, will effectually prevent the "vomiting and purging of children," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is like wise the mildest and most citizens are also known and has restored to tertain remedy known, and has restored to certain remeny known, and that restored to health and strength a great number when in an advanced stage of this fatal complaint.— Particular and I iain instructions are given for every part of the necessary treatment in

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

TAPE-WCRM.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltimore, began about 12 months ago, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapid y, and with that described but by one in a similar situation; his appetite declined rapidly, and with that his attength, so that he was unable to attend to any business; when he heard of some excellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in possession of H. Lee); but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first virous. Applicasoon convinced him that this monations rep-tile had recovered its first vigour. Applica-tion was made for more of the medicine, with advice, from which resulted the total expulsion of his formidable enemy, in seve-ral pieces, which he supposed to be six or eight yards more. A Cew weeks have since

clapsed, and Mr. Ruller a now is purfet health: The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wich to make further inquiries a the subject.

Although Hamilton's Worm Lorenges produce such powerful effects, when necessary, yet they are perfectly innecent and mild in their operation on the huma body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildners is abundantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, brick-layer, in Magazine- treet, near Broadway, New-York.

It would be ungrateful were I to withhold It would be ungrateful were I to withhold my testimony in lavor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly of in tormented with severe griping and pains in the bowels, troubled with offensive breath, with vio ent feverish fits, and other obvious symptoms of worms; but firequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, first evacuated twelve or thirteen itee of a tape worm, two offer doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pinning and lickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches different kind, from nine to twelve inches long, and at the same time restoring a good state of health.
