In submitting the above scheme to the public, the Managers will not attempt any eulogium on the importance or necessity of the object in view. They believe that, at this time, not a doubt exists in the mind of any well informed person, of the efficacy of the Kine Pock as a sale and certain preventative of the Small Pox. The difficulty, and it might be added the impossibility, of preserving this remedy without the aid of an institution, (such as is intended to be established and supported by the profits arising from this Lottery) is also well known. But it is proper to observe, that this Institution not only contemplates to preserve the genuine Vaccine Matter for the use of the citizens of this state, but also to give it, at all times, free of every expense, (with directions when required) to any of them who may have occasion to use it. To aid them accomplishing objects such as these, the Managera feel confident of the liberal and prompts a poort of the public.

The Scheme on an attentive examination, will be found to silordinducements to adventours at least equal to any brete-fore pro-

turers, at least equal to any heretofore pro-posed in this city. All prizes will be paid within sixty days after the drawing is completed.
