The inventor of this highly esteemed medi eine is a native of America, and the composi-tion is the production of American soil, contion is the production of American soil, con-sequently it is in every sense of the word do-m saic, it is not puffed up with a numerous train of pompous foreign certificates of per-sous from whom by the great distance that se-parates us its impossible to obtain information, therefore the public has better security for their morey as there expose he the least shadow of therefore the public has better security for their money as there cannot be the least shadow of deeption to cover his medicine, for he simply appears before the community with his inven-tion and an experimental detail of the various cases in which it really is so wonderfully effi-cacious, and in which he is supported by the following certificates, whose names are not oncac ons, and in which he is supported by the following certificates, whose names are not only subscribed, but their persons may also be, consulted, being residents within the circle of our neighborhood. It seems as though nature had ranked it the
first of the class of all pectorals and expectorals
for the relief of the breast and lungs as it scarcely ever fails of removing obstructions in ether, particula le those who are troubled with Phthi-sick or Aschmatic complaints who in the act of walking fast, stooping or ying down are a most sufficiented, h If a toa spoon full of the Colum-bian Oil will render somerelief instantaneously, Dian On will render somerehet incurtameously, and if a ntimed agreeably to the directions in such cases will prove a rad calcure, by producing the full power of inflation to the lungs and true expansion of the breast.

I was first recovery, to give a short statement of the complaint under which I suffered. I was first soiz di at he right hip wi h a most intolerable pain, which seemed exactly in the joint, and on the day following a dreadful pain in my back, which lasted about three weeks; during which time I could not walk upright, but always in a bent posture; and if scated in a chair, the pain would be so excruciating in the act of rising that it was impossible for me to refrain from screaming. My appetite had entirely left me, and a constant headache, would sometimes almost deprive me of my senses; in fact I was in a deplorable condition. A number of remedies were tried, but to no purpose. I had also the advice of an emin-at physician, who prescribed the hot bath, &c. which were regularly attended to, but without the smallest advantage. I had about nine ounces of blood taken from me, still the complaint did not give way in the least degree. I was then advised to try Paul's Columbian Oil, but very little hopes of succeeding; when to my great surprise and confirmed.
