Prevention better than Cure. For the Prevention and Cure of Bilious and Malignant Fevers, is recommended HAHN'S ANTI-BILIOUS PILLS.

Prepared (only) by H. LEB, 56 Maiden
Lane, New York,
THIS Medicine has, for ten years patt,
been attended with a degree of success A been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petr-sburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their, lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of

in favour of a medicine than columns of pompous eulogy founded on mere assertion could do.

tis not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring leath, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently a Lapted to sarry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. During the last nine years, I have been in the labit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Les, whenever colds, head-aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my head-ache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. HAMILTON'S Calebrated Worm-Destroying Lozenges,

Which there is reason to believe, have, which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever the athers of similar title, so commonly com-

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without rain or griping, cleanse dy, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the pro-duction of worms and many fatal disorders. The lozenges are particularly efficacious in csrrying off all gross humors and eruptions, feverish and billious complaints, and are the safest and mildest purgative that can be used

A dose of this medicine given occasionally A dose of this medicine given occasionally during the warm season, will effectually prevent the "vomiting and purging of children," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to be the object of the property a great number when in certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.— Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltimore, began about
12 months ago, to be grievously afflicted
with a tape-worm, which increased fast in
size and strength, so as to excite the most
horrid sensations by its writhing motions
and intolerable pains, resembling the gnawing and tearing of his howels, which deprived him of his necessary sleep, and caused
such dreadful apprehensions as cannot be
described but by one in a similar situation;
his appetite declined rapidly, and with that described but by one in a similar situation; his appetite declined rapidly, and with that his strength, so that he was unable to attend to any business; when he heard of some excellent cures performed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in possession of H. Lee); but a renewal of his pains soon conlineed him that this monstrous repaile had recovered its first virour. Applicasoon con meed nim tust this monstrous rep-tile had recovered its first vigour. Applica-tion was mads for more of the medicine, with advice, from which resulted the tota, espulsion of his formidable enemy, in seve-

ral pieces, which he supposed to be six or eight yards more. A few weeks have since clapsed, and Mr. Fuller s now in perfect health. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the subject.

Although Hamilton's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify: Their peculiar mildness is abundantly evident in the following cures of infants.

layer, in Magazine-street, near Broadway, New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been betwern 5 and 6 years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen fect of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 fect. The almost incredible benefit I received from this medicine, induced me to give a done to a child of mine who was ninfect. The almost incredible benefit I received from this medicine, induced me to
give a dose to a child of mine who was pining and sickly; it produced the same good
effect in this instance, expelled a worm of a
different kind, from nine to twelve inches
long, and at the same time restoring a good
state of health.
