Prevention better than Cure. For the Prevention and Cure of Bilious and

Malignant Fevers, is recommended HAHN'S ANTI-BILIOUS PILLS. Prepared (only) by H. LEB, 56 Muiden Lane, New York.

THIS Medicine has, for ten years past, been attended with a degrae of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Nor-folk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of Sarannah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of

in favour of a medicine than columns of pompous culogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our billows fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in reatoning health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to sarry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby It is not indeed presumptuously proposed

They have been found remarkably efficacious in preventing and curing disorders at-tendant on long voyages, and should be pro-cured, and carefully preserved for use by every seamen.

Certificate of Mr. William Devenney.

During the last nine years, I have been in the habit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my head-ache, and has generally been found sufficient to remove every symptom of cold, if tak-en on its first appearance. Induced by the benefit received, I have to many years past recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. Yours, &c.

HAMILTON'S Celebrated Worm-Destroying Lezenges,

Which there is reason to believe, have Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the stomach and howels.

This medicine bears no analogy whatever to others of similar title, so commonly com-plained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is nilld in its oper-stion that it cannot mine the most delicate ration that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleaned the stomach and bowels of whatever is foul or offensive, and thereby prevent the pro-duction of worms and many futal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any eccusion

A dose of this medicine given occasionally during the warm season, will effectually pre-vent the "vomiting and purping of chil-dren," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.— Particular and plain instructions are given for every part of the necessary treatment in

Children generally take this medicine with eagerness; having a pleasing appearance, and an agrecable taste.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltimore, began about

horrid sensations by its withing motions
and intolerable pains, resembling the gnawing and tearing of his bowels, which apprived him of his necessary sleep, and covered
such drea/ful apprehensions as counct be such dreadful apprehensions as counct be described but by one in a similar situation; his appetite declined rapidly, and with that his strength, so that he was unable to attend to any business; when he heard of some ex-cellent coresport rined by Hamilton's Worm lozenges, he took a large dose, which brought away about 4 yards (now in posses-sion of H. Lee); but a renewal of his pains soon convinced him that this monstrous repsoon coarried in the unit moistrous rep-tile had recovered its first vigour. health. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the rubject.

Although Hamilton's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mid in their operation on the human body, even when taken in large doses as Mr. Paller will testify. Their peculiar mildness is abundantly evident in the following cures of infants. infants.

Letter from Mr. Henry Ankerman, brick-

layer, in Magazine-street, near Broadway, New-York. It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often to mented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen fect of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good
