Prevention better than Cure. For the Prevention and Cure of Bilious and Malignant Fevers, is recommended HAHN'S ANTI-BILIOUS PILLS. Prepared (only) by H. LEB, 56 Maiden Lane, New York.

Lane, New York,

THIS Medicine has, for ten years past,
been attended with a degree of success
highly grateful to the inventor's feelings, in
several parts of the West-Indies, and the
southern of the United States, particularly
in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and
Sayaonah. The testimony of a number of
persons in each of the above places has been
adduced, who have reason to believe that a adduced, who have reason to believe that a timely use of this salutary remedy has, un-der Providence, preserved their lives when

in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to earry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite and the early of the produce a few perspiration and thereby

-produce a free perspiration, and thereby prevent colds, which are often of fatal con-sequences. A dose never fails to remove a cold, if taken on its first appearance. They coid, it taken on its instance. They are celebrated for removing habitual costiveness—sickness at the stomach and head ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacional control of the story of the story

ous in preventing and curing disorders at-tendant on long voyages, and should be pro-cured, and carefully preserved for use by every seaman.

Certificate of Mr. William Devenney. During the last nine years, I have been in the habit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my head-ache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they succeeded, in removing the above complaints. Yours, &c.

HAMILTON'S Celebrated Worm-Destroying Lozenges,

Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the sto-

mach and howels.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the bo-dy, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the pro-duction of worms and many fatal disorders. The lozenges are particularly efficacious in fererish and bilious complaints, and are the nafest and mildest purgative that can be used on any occasion.

A dose of this medicine given occasionally

during the warm season, will effectually pre-vent the "vemiting and purging of chil-dren," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the millest and most citizens. It is likewise the mittest and most certain remedy known, and has restored to health and strength a great number whos in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the necessary treatment in such execs.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Cases of Cures, selected from thousands, the authenticity of which any person may as-certain, either by letter or pars nal applica-tion; not being performed in Europe, nobo-dy knows where—but at home.

TAPE-WORM.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltunere, began about 12 months ago, to be griceously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapidly, and with that his strength, so that he was unable to attend to any business; when he heard of some excellent ecres perfermed by Hamilton's Worm Lozenges, he took a large dose, which brought away about 4 yards (how in postersion of H. Lee); but a renewal of his pains sion of H. Lee); but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first vigour. Application was made for more of the medicine, with advice, from which resulted the tota, expulsion of his formidable enemy, in seve-

ral pieces, which he appeared to be six or eight yards more. A few weeks have since clapaed, and Mr. Fuller a now in perfec-health. The above facts are well known to a numerous circle of his neighbors, and he

a numerous circle of his neighbors, and achimself will gratify any who may with to make further inquiries on the subject.

Although Hamilton's Worin Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, bricklayer, in Magazine-street, near Broadway,

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine. I determined on ed in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a doze to a child of mine who was pin-ing and sickly; it produced the same good effect in this instance, expelled a worm different kind, from nine to twelve inches long, and at the same time restoring a good state of health.
