Lane, New York.

Tills Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in feveral parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilhaington, Charleston and Savannah. The testimony of a number of persons in each of the above piaces has been adduced, who have reason to believe that a persons in each of the above piaces has been addited, who have reason to believe that a timely use of this salutary remedy has, under Provideace, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pomprays culture founded on more assertion.

pompous culogy founded on mere assertion

pompous eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently a lapted to earry off superfluous bile, and prevent its morbid recretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual cistiveness—sickness at the stomach and heal ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficaci-

on a change of climate.

They have been found remarkably efficacional property at ous in preventing and curing disorders at-tendant on long voyages, and should be are-cured, and carefully preserved for use by every seuman.

Certificate of Mr. William Devenney.

During the last nine years, I have been in the babit of using Hahn's Anti-Bitious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my headache; and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. Yours, &c.

## HAMILTON'S

Celebrated Worm-Destroying Lezenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangarous complsints arising from worms, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly com-

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate preguant lady, or the tenderest infant of a week old, should no worms exist in the body, but will without pain or griping, cleanse week old, should no worms exist in the body, but will, without pain or griping, cleanse the stomacn and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The losenges are particularly efficacious in carrying off all gross humors and cruptions, feverish and billious complaints, and are the safest and mildest purgative that can be used

A dose of this medicine given occasionally A dose of this medicine given occasionally during the warm season, will effectually prevent the "womiting and purging of ckildron," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Cases of Cures, selected from thousands, the authenticity of which any person may ascertain, either by letter or personal application; not being performed in Europe, nobody knows where—but at home.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten mites from Baltimere, began about
12 months ago, to be grievously afflicted
with a tape-worin, which increased fast in
size and strength, so as to excite the most
horid sensations by its writing motions
and intolerable pains, resembling the guawing and tearing of his bowels, which deprived nim of his necessary sleep, and caused
such dreadful apprehensions as cannot be
described but by one in a similar situation;
his appriire declined rapidly, and with that
h s strength, so that he was unable to attend
to any business; when he heard of some ex-TAPE-WORM. he strength, so that he was unable to attend to any business; when he heard of some ex-cellent cures performed by Ham Iton's Worm Lozenges, he took a large dose, which brought away about 4 yards (now in posses-sion of H. Lee); but a renewal of his pains some convinced him that this monstrous rep-tife had recovered its first vigour. Applica-tion was made for more of the medicine, with advice, from which resulted the tota, expulsion of his formitable, enemy, in seve-

expulsion of his formidable enemy, in seve-

ral pieces, which he supposed to be six of eight yards more. A few weeks have since clapset, and Mr. Fuller a now in perfect bealth. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the subject.

Although Hamilton's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, bricklayer, in Magazine-street, near Broadway, New-York.

It would be ungrateful were I to withhold my testimony in tayor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and lat-5 and 6 years past much indisposed, and lat-terly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommend-ed in cases similar to mine, I determined on a trial of them, as my last resource. The ed in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two offer doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pianing and sickly; it produced the same good ing and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health.
