THIS Medicine has, for ten years past,
been attended with a degree of success
highly grateful to the inventor's feelings, in
several parts of the West-Indies, and the
southern of the United States, particularly
in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and
Savannah. The testimony of a number of
persons in each of the above places has been
adduced, who have reason to believe that a
timely use of this salutary remedy has, under Providence, preserved their lives when
in the most alarming circumstances.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our billious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the succeed in restoring health, and requenty in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all per-

mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to earry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual costiveness—mickness at the stomach and head able—and ought to be taken by all persons tiveness — tickness at the stomach and head ache — and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacions in preventing and curing disorders at-

During the last nine years, I have been in the habit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or costiveness have rendered mediciae necessary; in these cases a single dose has uniformly removed my head-ache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the benefit received, I have for many years past secommended them to many of my friends, and I have the pleasure to inform you, they and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. HAMILTON'S

Celebrated Worm-Destroying Lozenges,

Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the sto-

mach and bowels.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the promach and bowels. or offensive, and thereby prevent the pro-duction of worms and many fatal disorders. The lozenges are particularly efficacions in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used

on any occasion

A dose of this medicine given occasionally during the warm season, will effectually prevent the "vomiting and purging of children," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is like wise the mildest and most certain remedy, known, and has restored to certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.—Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

TAPE-WORM.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltimore, began about 12 months ago, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most horid sensations by its writing motions and intolerable pains, resembling the gnawing and tearing of his howels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be described but by one in a similar situation; such dreading appreciations; described but by one in a similar situation; his appetite declined rapidly, and with that his atrength, so that he was unable to attend to any business; when he heard of some excellent cures performed by Hamilton's Worm called the such as the control of the such does, which cellent cures performed by Hamilton's Worm
Lozonges, he took a large dose, which
brought away about 4 yards (now in possession of H. Lee); but a renewal of his pains
soon convinced him that this monstrous reptile had recovered its first vigour. Application was made for more of the medicine,
with advice, from which resulted the tota,

The high opision I have of your Bilious Pills, and a desire to make known their utility for the beauth. The above facts are well known to a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the subject.

duce such powerful enects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of information.

Letter from Mr. Henry Ackerman, brick-layer, in Magazine-street, near Broadway,

New-York.

It would be angrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your Worm Lozenges recommended in cases similar to mine, I determined on a trial of them, as my last resource. The ed in cases similar to mine, I determined on a trial of them, as my last resource. The first evacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health. state of health.

## ITCH CURED

By once using Lee's Sovereign Quatment. The proprietor informs those persons and families who are suffering under this disease (against the infection of which no person is safe) that if this ointment is used at night on going to bed it never fails to perform a cure by the following morning, as thousands who have used it during the flast ten years can testify. The peculiar excellencies of this infallible remedy for the itch, over every other, are the certainty of the cure by a single application: the ingredients being so innocent as to be applied with perfect safety to the tenderest infast; and its being not only free from any offensive smell, but equalonly free from any offensive smell, but equal-ly agreeable with the pleasantest pomatum.
