Prevention better than Cure. For the Prevention and Cure of Bilious and Malignant Fevers, is recommended HAHN's ANTI-BILIOUS PILLS.

Malignant Fevers, is recommended HAHN's ANTI-BILIOUS PILLS. Prepared (only) by H. LEB, 56 Maiden Lane, Mrs. York.

THIS Medicine has, for ten years past, been attended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Petersburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimony of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of pempous eulogy founded on mere assertion could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our binious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly

on cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to sarry off superfutuous bile, and prevent its morbid secretions—to restore and amend the appetite therefore and account of the safety of the safety and therefore. -produce a free perspiration, and thereby prevent colds, which are often of fatal con-sequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual costiveness—tickness at the stomach and head tiveness — ickness at the stomach and head ache — and ought to be taken by all persons on a change of climate. They have been found remarkably efficaci-

ous in preventing and curing disorders at-tendant on long voyages, and should be pro-cured, and carefully preserved for use by every seaman.

Certificate of Mr. William Devenney.

During the last nine years, I have been in the habit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head aches or costiveness have rendered medicine necessary; in these cases a single dose has uniformly removed my headache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. Induced by the en on its first appearance. Induced by the benefit received, I have for many years past recommended them to many of my friends, and I have the pleasure to inform you, they have invariably succeeded, in removing the above complaints. Yours, &c.

HAMILTON'S

Celebrated Worm-Destroying Lezenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the sto-

and from obstructions or foulness in the sto-mach and bowels.

This medicine bears no analogy whatever-to others of similar title, so commonly com-plained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its ope-ration that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the body, but will, withoutpain or griping, cleanse dy, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the pro-duction of worms and many fatal disorders. The lozenges are particularly efficacious in estrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used

on any occasion.

A dose of this medicine given occasionally during the warm season, will effectually prevent the "vomiting and purging of children," a dreadful disorder, which annually destroys thousands of the infant part of our destroys thousands of the intaint part of our citizens. It is like wise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal compliant.—Parlicular and plain instructions are given for every part of the necessary creatment in

Children generally take this medicine with eagerness ; having a pleasing appearance, and an agreeable taste.

Cases of Cures, selected from thousands, the authenticity of which any person may as-certain, either by letter or personal applica-tion; not being performed in Europe, nobo-dy knows when—but at home.

TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hart-ford, ten miles from Baltimore, began about 12 months ago, to be grievously afflicted with a tape-worm, which increased fast in size and strength, so as to excite the most horrid sensations by its writhing motions and intolerable pains, re-sembling the gnaw-ing and tearing of his bowels, which depriv-ed him of his necessary sleep, and caused area dreafful annechensions as cannot be ed him or ins necessary steps as cannot be such dreadful; apprehensions as cannot be described but by one in a similar simation; his appetite declined rapidly, and with that his strength, so that he was unable to attend his strength, so that she was unable to the term of some excilent cores performed by Hamilton's Worm
Lozenges, he took a large dose, which
brought away about 4 yards (now in possesin of H. Lee); but a rene wal of his pains
adon convinced him that this monstrous reptile had recovered its first vigour. Applica-tion was made for more of the medicine, with advice, from which resulted the tota. sapulsion of his formidable enemy, in sere-

ral pieces, which his supposed to be six or eight yards more. A few weeks have sinch eiapand, and vir. Fuller a now an perfec health. The above facts are well known to a numerous circle of his neighbors, and he

a numerous circle of his neighbors, and he himself will gratify any who may wish to make further inquiries on the subject.

Although Hamilton's Worm Lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even when taken in large doses as Mr. Fuller will testify. Their peculiar mildness is abundantly evident in the following cures of infants.

Letter from Mr. Henry Ackerman, bricklayer, in Magazine-street, near Broadway,

New-York.

It would be ungrateful were I to withhold my testimony in favor of Hamilton's Worm destroying Lozenges. I had been between 5 and 6 years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious expentions of wearns. but feedurable obvious symptoms of worms; but frequently hearing your Worm Lozenges recommend-ed in cases similar to mine, I determined on ed in cases similar to mine, I determined on a trial of them, as my last resource. Tha first exacuated twelve or thirteen feet of a tape worm, two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good long, and at the same time restoring a good long, and as the state of health.
