THIS Medicine has, for ten years past, becountended with a degree of success highly grateful to the inventor's feelings, in several parts of the West-Indies, and the southern of the United States, particularly in Baltimore, Peterburg, Richmond, Norfolk, Edenton, Wilmington, Charleston and Savannah. The testimosy of a number of persons in each of the above places has been adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature, speak more in favour of a medicine than columns of

could do.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience, for believing that a dose of these pills, taken once every two weeks, during the prevalence of our bilious fevers, will prove an infallible preventative—and further, that in the earlier stages of those diseases, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate, and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by all persons in every situation, and of every age.

They are excellently adapted to earry off superfluous bile, and prevent its morbid secretions—to restore and amend the appetite—produce a free perspiration, and thereby prevent colds, which are often of fatal consequences. A dose never fails to remove a cold, if taken on its first appearance. They are celebrated for removing habitual constituences—attackness at the stomach and head It is not indeed presumptuously proposed

Certificate of Mr. William Devenney. During the last nine years, I have been in the habit of using Hahn's Anti-Bilious Pills, prepared by the late Mr. Lee, whenever colds, head-aches or constitueness have rencolds, head aches or contineness have rendered medicine necessary; in these cases a single dose has uniformly removed my headache, and has generally been found sufficient to remove every symptom of cold, if taken on its first appearance. ## HAMILTON'S

Celebrated Worm-Destroying Lexenges, Which there is reason to believe, have, within ten years past, cured upward of two hundred thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or foulness in the sto-

and from obstructions or foulness in the sto-mach and howels.

This medicine bears no analogy whatever to others of similar title, so commonly com-plained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is mild in its ope-ration that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old, should no worms exist in the bo-dy, but will, without pain or griping, cleanse week old, should no worms extend the body, but will, without pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, foverish and bilious complaints, and are the

A dose of this medicine given occasionally during the warm season, will effectually pre-vent the "vomiting and purging of chil-dren," a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint.—
Particular and plain instructions are given every part of the necessary treatment in

safest and mildest purgative that can be used

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

Cases of Gures, selected from thousands, the authenticity of which any person may as-certain, either by letter or personal applica-tion; not being performed in Europe, nobo-dy knows where—but at home. TAPE-WORM.

Mr. Samuel Fuller, inn-keeper on the Hartford, ten miles from Baltimore, began about
12 months ago, to be grievously amicted
with a tape-norm, which increased fast in
size and strength, so as to excite the most
horrid sensations by its writhing motions
and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused
such dreadful apprehensions as cannot be and him or in flexes y step, and the such dreadful apprehensions as cannot be described but by one in a similar situation; his appetite declined rapidly, and with that his strength, so that he was unable to attend to any business; when he heard of some excellent cures performed by Hamilton's Worm Luzanges, he took a large dose, which bought away about 4 yards (now in possession of H. Lee); but a renewal of his pains soon convinced him that this monstrous repson convinced him that this monstrous rep-tile had recovered its first vigour. Applica-tion was made for more of the medicine, with advice, from which resulted the tots, espulsion of his formidable enemy, in seve-

Letter from Mr. Henry Ackerman, bricklayer, in Magazine-street, near Breadway,
New-York.

It would be ungrateful were I to withhold
my testimony in favor of Hamilton's Worm
destroying Lozenges. I had been between
5 and 6 years past much indisposed, and latterly often tormented with severe griping and
pains in the bowels, troubled with offensive
breath, with violent feverish fits, and other
obvious symptoms of worms; Burfrequently
hearing your Worm Lozenges recommended in cases similar to mine, I determined on
a trial of them, as my last resource. The
first evacuated twelve or thirteen feet of a
tape worm, two other doses were taken, first evacuated tweeve or thirteen test of a tage worm, two other doses were taken, which brought away a quantity of matter broken like akins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded 40 feet. The almost incredible benefit I remined from this medicine, induced me to ceived from this medicine, induced me to give a dose to a child of mine who was pin-ing and sickly; it produced the same good effect in this instance, expelled a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good tite of health.
