NATURE'S OWN PRESCRIPTION

A compound Balsamic preparation of the Pru nus Virginia, or "Wild Cherry Bark," combined with the Extract of Tar, prepared by a new chemical process, approved and racommended by the most distinguished physicians, and universally acknowledged the most valuable medicine ever di

The universal celebrity which this medicine is rapidly gaining in every section of the country and the many astonishing cures it has effected have now established its efficacy beyond all doubt but it should be remembered, that in diseases of the LUNGS or LIVER, as in all other chronic affections, a little time is always necessary to el fect a cure. Although in most cases the Balsam will afford a most immediate relief, and often et ect great changes in a few days, it cannot rea sonably be expected to produce the same saluta ry effect in every case in so short a time; yet from the high celebrity it has acqurired, we find many persons are apt to expect too much at the commencement, while others expect a Single Bol the to afford them greater relief than all the med icine they had taken for months previous.

We will not assert that this BALSAM will cure consumption in its worst form, but it has cured many after all other means of relief had been tri ed in vain. And why not? It seems that the WILD CHERRY was destined by Nature to be our PANACEA for the rayaging diseases of this lati tude. Let not the despairing invalid waste his money and lose time, to him so all important, in experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if a cure be possible—a medicine that serence ab proves, and many years of experience have de monstrated that it always relieves. "CONFESSION."

I THE subscriber publicly confess that I have been afflice ed with a Secret disease ever since 1823, I had thirteen emi nent physicians whose names are recorded at the French Medical House; some of them abated the disease; but it always returned worse than before, until it carried away both sides of my throat and prerced the lop of my palate. I also lost several bones of my nose and was almost blind of an eye, and my face was covered with an immense quantity of scabs, between which theskin waf as ied as scaylet, and I was indeed in a most deplorable condition, so much so that the learned professor S. pronounced me incurable. It was obvious to nie then that a common doctor could not extricate me from the jaws of death-for they all follow the same old routine with their train of mercury, intxture or pills, invented by ignorance and continued by cupidity, and do no good to any but the venders. Several persons recommended the French Doctor of the Medical House, 16 South VREDER-ICK St. as a scientific man and a rare genius in those complaints. I went to him and he pledged himself to cure me on written guasanty, end he furnished me with one room in his house, as he generally does, with strangers, at no cure no pay. I did not hesitate at all on seeing so many likenesses of patients, who are living evidences of the many wonderful cureshe has performed of almost every kind of disease. Then he had my daguerreotype likeness and I took his medicine for about a year which completely cured me. "DISEASED LIVER."
