PULMONARY ORGANS. A very important disease over which this "Balsans" exerts a very powerful influence, is that of a stances when patients had endured long severe when MERCURY has been resorted to in vain. the use of this BALSAM has restored the LIVER Sworn before Justice Wm. McJilton, Oct. 30, 1845. to a healthy action, and in many instances effec ted permanent cures after every known remedy had failed to produce this distred effect.

Besides its astonishing efficacy, in the diseases above mentioned we also find it a very effectual | I first so much boasted of, is merely the temporary remedy in ASTHMA, a complaint in which it has disappearance of the symptome, by means of mercury been extensively used with decided success even in cases of years standing.

NATURE'S OWN PRESCRIPTION

A compound Balsamic preparation of the Pru nus Vuginia, or "Wild Cherry Bark," combined with the Extract of Tar, prepared by a new chem ical process, approved and racommended by the most distinguished physicians, and universally ac knowledged the most valuable medicine ever dis

The universal celebrity which this medicine is rapidly gaining in every section of the country and the many astonishing cores it has effected, have now established its efficacy beyond all doubt. but it should be remembered, that in diseases of the LUNGS or LIVER, at in all other chronic affections, a little time is always necessary to e fect a cure. Although in most cases the Balsam will afford a most immediate relief, and often e ect great changes in a few days, it cannot res sonably be expected to produce the same saluta ry effect in every case in so short a time; vet from the high celebrity it has acquired, we find many persons are apt to expect too much at the commencement, while others expect a Single Bol tle to afford them greater relief than all the med icine they had taken for months previous.

We will not assert that this BALSAM will cure consumption in its worst form, but it has cured many after all other means of relief had been tri ed in vain. And why not? It seems that the WILD CHERRY was destined by Nature to be tude. Let not the despairing invalid waste his experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if a cure be possible—a medicine that serence ab proves, and many years of experience have de monstrated that it always relieves. "There is no such thing as fail" in the history of this wonder ful Balsam. Evidence the most convincing-ev idence that no one can doubt, Iully establishes

Inpresenting this highly useful and valuable medicine to public notice as a remedy for Con sumption and Pulmonary diseases in general, the proprietor has been actuated solely by thegieat success attending its use in his practice and a de sire to benefit the afflicted, and would therefore wish particularly to impress upon the public mind that it is entirely different from the nostrums dail ly ushered into notice by boasting quacks, as it not only emanates from a regular Physician but into by the same individuals, that whenever any one has also been well tested in all the complaints for which it is recommended. It is not my intention, therefore, either to cleak it in mystery or in any way deceive the public by overrating its virtues; on the contrary, I shall simply endeavor to give a brief statement of its usefulness, and flatter my self that its surprising efficacy will enable me to turnish such proofs of its virtues as will satisfy the most incredulous that CONSUMETION may and "CAN BE CURED," if this medicine be re

"CONFESSION." The last day

1 Till subscriber publicly confess that I have been afflio ed with a Secret disease ever since 1823, I had thirteen emi nent physicians whose names are recorded at the French Medical House; some of them abated the disease; but It always returned worse than before, until it carried away both sides of my throat and prereed the top of my palate 1 als lost several bones of my nose and was almost blind of an eye, and my face was covered with an immense quantity of scabs, between which theskin waf as red as scaylet, and 1 was indeed in a most deplorable condition, so much so that the learned professor S. pronounced me incurable: It was obvious to me then that a common dector could not extricate me from the jaws of death—for they all follow the same old continue with those texts of continue metals as well a learner of the same old. routine with their train of mercury, mixture or pills, invented by ignorance and continued by cupidity, and do no good to any but the venders. Several persons recommended the French Doctor of the Medical House, 16 South VREDER. THE best medicine known to man for incipient Con | ICK St. as a scientific man and a rare genius in those complaints. I went to him and he pledged himself to cure me on written guasanty, and he furnished me with one room if Shortness of Brezeh, pain and weakness in the his house, as he generally does, with strangers, at no cone no pay. I did not hesitate at all on seeing so many likenesses of patients, who are living evidences of the many won-derful cures he has performed of almost every kind of disease. Then he had my daguerreotype likeness and I took his medicine for about a year which completely cured me.—
He had then my other likeness taken, and both are to be "DISEASED LIVER." In this complaint it seen at his office.
