"SUGAR COATED" PILLS,

BEWARE! CAUTION !!

The increasing popularity of Dr. G. Benj. Smith's improved Indian Vegetable Sugar Coated Pills, has induced a number of persons to make something they call pills, and coat them with sugar, in order to sel them for the genuine, while they do not possess a particle of the goodness, nor even assimilate in appearance the original, Dr. Smith's Pills. In short, they are an intended fraud upon the community. A min ister who at first had an interest in an imitation Sugar Coated Pill, manufactured at Albany, N. Y. has given them up, as he says, on account of the miser able dishonest parties concerned in manfacturing them. The same party are now industriously circulating re paired, all kinds of Chairs manufactured after City ports calculated to injure Dr. Smith and to affect the reputation of his valuable pills; but rather than notice proceedings against them for their slanders, as he has in another case against a similar party, in which he recovered a large amount of damages. These misers able imitators have to resort to the most abominable means to palm off their counterfeit pills as the public know that Dr. Smith's are the original and genuine Several instances have come to public notice in which life has been endangered by the unfortunate use of the counterfeits. REMARKABLE CURE OF COLD.

New York, March 2, 1846. I very imprudently went out last week with a pair of shoes on, having sent my boots to the boot-maker for repair, and I took a very severe cold, which settled in my limbs, stiffened my neck, and rendered me wholly incapable of attending to business. On the following night I took six of Dr. Smith's Indian Vegetable Sugar Coated Pills, which entirely relieved me, and the nextday I telt as well as usual. know they are the pest medicine that can be used

Brooklyn, 127 Myrtle St. Oct 1, 1846. Dr. Smith-Sir, It is with great satisfaction I acknowledge the benefit my wife has received from the use of a few boxes of your pills which she used at the recommendation of a friend. Having fallen into bad health early in winter, she used them with perfect safety, even in that cold season. Sh has at times used Morrison's Moffat's and othe rs, d she state she has received more benefit from them than all th others. She believes they may be used with perfect safety by females, without changing either their em ployment or diet, and that at any season of the year

NATURE'S OWN PRESCRIPTION

A compound Balsamic preparation of the Pru nus Virginia, or "Wild Cherry Bark," combined with the Extract of Tar, prepared by a new chem ical process, approved and racommended by the most distinguished physicians, and universally ac knowledged the most valuable medicine ever dis

The universal celebrity which this medicine is rapidly gaining in every section of the country, and the many astonishing cures it has effected, have now established its efficacy beyond all doubt, but it should be remembered, that in diseases of the LUNGS or LIVER, as in all other chronic affections, a little time is always necessary to ef fect a cure. Although in most cases the Balsam will afford a most immediate relief, and often ef ect great changes in a few days, it cannot rea sonably be expected to produce the same saluta Phospate of Ammonia, ry effect in every case in so short a time; vet, Monesia, trom the high celebrity it has acquired, we find Tannin. many persons are apt to expect too much at the commencement, while others expect a Single Bot | Sulph. of Morphia, tle to afford them greater relief than all the med Acetate of do., icine they had taken for months previous.

We will not assert that this BALSAM will cure consumption in its worst form, but it has cured many after all other means of relief had been tri ed in vain. And why not? It seems that the WILD CHERRY was destined by Nature to be our Panacea for the ravaging diseases of this lati tude. Let not the despairing invalid waste his money and lose time, to him so all important, in experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if

cure be possible—a medicine that serence ab roves, and many years of experience have de monstrated that it always relieves.
