CONSUMPTION I tail of

THE best medicine known to man for incipient Con sumption, Asthma of every stage, Liver Complaints, side, oretis, Influenza, Coughs, Colds, Bleeding at the Shortness of Breath, pain and weakness in the ast, &c. and all other diseases of the

PULMONARY ORGANS.

A very important disease over which this "Balsam" exerts a very powerful influence, is that of a "DISEASED LIVER." almothis becomplaint if has undoubtedly proved more efficacious than any remedy hitherto employed, and in numerous in stances when patients had endured long severe suffering from the disease, without receiving the least benefit from various remedies, and even when MERCURY has been resorted to in vain, the above articles, to which he would call the use of this BALSAM has restored the LIVER the attention of the Public and Physicians to a healthy action, and in many instances effec ted permanent cures after every known remedy had failed to produce this disired effect.

Besides its astodishing efficacy in the diseases above mentioned, we also find it a very effectual remedy in ASTHMA, a complaint in which it has been extensively used with decided success even in cases of years standing.

NATURE'S OWN PRESCRIPTION

A compound Balsamic preparation of the Pru nus Virginia, or "Wild Cherry Bark," combined with the Extract of Tar, prepared by a new chem ical process, approved and racommended by the most distinguished physicians, and universally ac knowledged the most valuable medicine ever dis

The universal celebrity which this medicine is rapidly gaining in every section of the country, and the many astonishing cures it has effected, have now established its efficacy beyond all doubt, but it should be remembered, that in diseases of the LUNGS or LIVER, as in all other chronic affections, a little time is always necessary to ef fect a cure. Although in most cases the Balsam will afford a most immediate relief, and often ef ect great changes in a few days, it cannot rea sonably be expected to produce the same saluta ry effect in every case in so short a time; yet, from the high celebrity it has acqurired, we find many persons are apt to expect too much at the commencement, while others expect 2 Single Bot tle to afford them greater relief than all the med icine they had taken for months previous.

We will not assert that this BALSAM will cure consumption in its worst form, but it has cured If the symptoms are present, and the pills used ac ed in vain. And why not? It seems that the cording to the directions without producing benefit, WILD CHERRY was destined by Nature to be our PANACEA for the ravaging diseases of this lati tude. Let not the despairing invalid waste his money and lose time, to him so all important, in experimenting with the trashy nostrums of the day, but use at once a medicine that will cure, if a cure be possible—a medicine that serence ab proves, and many years of experience have de monstrated that it ahouys relieves.
