"SUGAR COATED" PILLS, BEWARE! CASTION!!

The increasing popularity of Dr. G. Benj. Smith's improved Indian Vegetable Sugar Coated Pills, has induced a number of persons to make something they call pills, and coat them with sugar, in order to sell them for the genuine, while they do not possess a particle of the goodness, nor even assimilate in appearance the original, Dr. Smith's Pills. Is short, they are an intended fraud upon the community. A minister who at first had an interest in an imitation Sugar Coated Pill, manufactured at Albany, N. Y. has given them up, as he says, on account of the miserable dishonest parties concerned in manfacturing them. The same party are now industriously circulating reports calculated to injure Dr. Smith and to affect the reputation of his valuable pills; but rather than notice them in public, Dr. Smith is about to institute legal proceedings against them for their slanders, as he has in another case against a similar party, in which he recovered a large amount of damages. These miser- NEGROES, of both sexes, that are slaves for life. able imitators have to resort to the most abominable with good titles. He can always be found at the Homeans to palm off their counterfeit pills as the public tel of Mr. John Bradshaw, in Cambridge. Letters know that Dr. Smith's are the original and genuine. Several instances have come to public notice in which He buys upon his own responsibility, and will pay life has been endangered by the unfortunate use of the the highest cash prices.

REMARKABLE CURE OF COLD.

New York, March 2, 1846. I very imprudently went out last week with a pair of shoes on, having sent my boots to the boot-maker for repair, and I took a very severe cold, which settled in my limbs, stiffened my neck, and rendered me wholly incapable of attending to business. On the following night I took six of Dr. Smith's Indian Vegetable Sugar Coated Pills, which entirely relieved me, and the nextday I telt as well as usual. I know they are the best medicine that can be used
