SATURDAY MORNING, MAY 8, 1847.

The Orphans' Court of Dorchester County will sit on the 10 day of May.

THE WHIG CONVENTION.—It will be perceived by reference to the advertisement in another Thos. H. Bayly, column, that the mode of appointing delegates to R. T. L. Beale, the Whig Gubernatorial Convention has been changed so as to conform to the plan of the Whig State Central Committee. It was announced in our last week's paper that the Whigs of Dorset would assemble in Cambridge on the 31st of the present month to appoint five delegates to the Gubernatorial Convention. It is now suggested that they shall meet in their respective districts on Saturday the 29th inst., and select five delegates to meet in County Convention in Cambridge on Monday the 7th day of June, to appoint five delegates to represent this county in the Whig Gubernatorial Convention which will mocratic majority of 22. assemble in Cambridge on the 16th of June. We of the county will give their attention to the subject, and fail not to send delegates to the County part of the County shall be represented.

MURDER.—A most atrocious murder was committed near New Market, in this county, on Tues day last, by a negro man named Denwood Camper upon a negro man living with James Thompson Esqr. The weapon used was a grubbing hoe, with which the murderer despatched his victim, and afterwards cut off his head. Camper has been apprehended and lodged in jail in this town, where he will remain until his trial which will take place at the next October term of our Court. We understand he has made a full confession of the murder. The quarrel originated about parched corn; a trifling matter, certainly, to lead to such monstrous consequences.

More Troops for Mexico.—We learn that the "First Mechanical Volunteers," Major John W. Watkins commanding, and the "Eagle Artillerists," Lieut. Col. Geo. P. Kane commanding, have tendered their services to the President to serve during the war with Mexico, and have been

Oats 50 cents, and Rye 85a93 cts.

Since the above was in type, we learn that the news brought by the Caledonia has caused Wheat to advance to 1,85 and Corn to 1,10.

THE CROPS.—From the best information we can gather from our farmers we learn that the Wheat crop has been seriously injured by the drought, and looks unpromising in this county generally. Many of our farmers have not yet planted corn on account of the long drought .-We understand also that the peach crop has been seriously affected by the recent frosts. In fine, the prospects of the agriculturists are any thing of Mexico, while he filled his haversack with new

Shade Trees.—We understand that the insects which for several years past have almost destroyed the elm trees here and elsewhere, have again made their appearance in some parts of our town. A preventive against the ravages of these worms is known to all our citizens, and can be applied at a small expense and trouble; and when it is considered how much the beauty of our town and the health and comfort of our citizens are promoted by preserving these trees in their freshness and verdure, we hope there are none who will neglect to apply the remedy.

THE WAR IN MEXICO.—It is just one year since the war broke out in Mexico. On the 8th the first battle, that of Palo Alto, was fought and the first victory won.

Snow and Ice.—A letter from Montreal, dated April 28, says:-The hills of ice in the St. Lawrence have at this moment a magnificent appearance. It is astonishing to see the immense piles which now cover the river in front of the city.-The weather continues very cold, and the snow is in many places two feet in depth.

from New Orleans, on the 26th April, 8796 bales cotton; 41,155 bbls. flour; 14,960 sacks corn; and 3941 sacks wheat.

GEN. TAYLOR AND THE PRESIDENCY .- It is now positively asserted in New York that a letter from General Taylor has been received there, written in reference to his nomination for the Presidency, in which he expresses a preference for Henry Clay over every other candidate named, and for Crittenden and McLean next. But notwithstanding that these are his preferences over all others, it is said "that he still candidly avows that he is not indifferent to the will of the people, and intimates that he will feel himself bound to accept the Presidency if the people should persist in thrusting it upon him!'

It is highly desirable that every with the expressed wish to die in the service of his country, and, if need be, on the field of battle.-"They cannot cheat me out of many years," said he. When ordered with the battalion, like a forlorn hope, to the trying contest in the mountains, he exclaimed with a look of joy, as he drew his sword: "Now, boys, this looks like doing something." The enemy triumphed over his fall, supposing him to be General Wool.

The writer promised much pleasure to himself in travelling with him through this country.
