## FROM THE SEAT OF WAR!

We received by the Steamboat "Cambridge" on yesterday evening, a copy of the Baltimore Sun, containing important intelligence from the City of Mexico, as copied from the New Orleans Delta of the 5th inst. and the Picayune, extra, of the same date. As the lateness of the hour prevents us from copying it entire, we hasten to lay before our readers the following, being the substance of the whole:

### ARRIVAL OF THE STEAMSHIP NEW ORLEANS.

The steamship New Orleans, Capt. Auld, arrived this morning, having left Vera Cruz on the 1st inst.

The British courier arrived at Vera Cruz on the 31st of October, having left Mexico on the 29th to which date we have letters and papers.

The city of Mexico was filled with rumors of peace. It was said that a quorum had met at Queretaro, and that the majority decided in favor of an amicable adjustment of difficulties.

The train which is to come down will be under the command of Col. Harney. A great number of wounded officers are to accompany. Major Gaines, Capt. Cassius M. Clay, Capt. Headly, Major Borland, Capt. Danley and Midshipman Rogers come home, and we are happy to add our associate, Mr. Kendall.

The Delta extracts the following from the Vera Cruz Genius of Liberty.

From four French gentlemen who left the city of Mexico on the 13th, and Puebla on the 16th of the present month, we have received intelligence of a very important nature, concerning the state of affairs of those quarters.

Gen. Lane having arrived at Perote, was there joined by Capt. Walker and his command and, both advanced together on the Puebla road until they reached the town of Yreyes.

At this place Capt. Walker, by order of the commanding General, took up his line of march to Huamantla, by way of the town of San Francisco and Guapastla. On his arrival at Huamantla a sanguinary engagement ensued in the streets between the force of Capt. Walker, consisting of 2,600 men, and that of the Mexicans, numbering 1,600, the result of which was the total expulsion of the enemy from the town, and its occupation by our valiant little army.

But the gallant Walker, after performing prodigies of valor and feats of the most daring character, fell in a single combat, pierced by the spear of an enraged father, who, goaded to actual frenzy by the death of his son, whose fall beneath the arm of Capt. Walker he had just witnessed, rushed forward, heedless of all danger, to avenge his death, and attacking the captain with almost irresistible violence, plunged his spear into his body, and slew him almost instantly.

The Mexicans lost two hundred men and three pieces of artillery. The latter were thrown into a gulley in the rear of the town by the victors, who, after the achievement of their object, the dispersion of the guerrillas, for which they were despatched to Huamantla, evacuated the place, and directed their course towards Pinal on the Puebla road, which they reached without any opposition, and there meeting with Gen. Lane again, the combined American force continued its march upon Puebla.

Into this city, which was in a state of insurrection, it entered in platoons, delivery at every step a constant and well directed fire of musketry, which ceased not until the enemy retreated and order was restored in every quarter.

Atlixco has been taken possession of by 1,000 of our forces. This large city has wisely yielded without the least resistance. Orizaba is, also, by this time, in possession of the American forces.

The Mexican government has superseded Santa Anna in the command of the Army. General Rincon has been appointed to that office. Santa Anna loudly protested against the violation of his rights as the first magistrate of the nation, and, refusing obedience to the government, retired to Tehuacan.

THE NEWS IN N. YORK.—The Express of Saturday says: The news by the steamer from Liverpool is worse than was anticipated. Although the letter of Horsley Palmer had predicted a continued crash, yet private accounts by the French steamer, gave encouragement that the crisis had passed. It appears, however, that mercantile embarrassments were spreading in every direction; and such is the necessary consequence of so much distress. Failures in London, Liverpool, Manchester and different parts of the country, must seriously affect and cause other houses connected with them to suspend. The failures that have taken place must produce others, and we can hardly expect that the advices will bring a much better state of things. The pressure is so powerful, that every species of property is affected. American produce of all kinds is lower; Stocks have fallen; Consols which stood two years ago at par, or a trifle under, have fallen to about eighty. Every branch of manufactures and trade of all kinds is seriously affected; and until there is some relief in the monied concerns of the country, it will be impossible for any advance in prices to take place.

Although the Bank of England has seven or eight millions of bullion and specie on hand, which in no ordinary times would be sufficient, yet in the present condition of things with confidence diminishing she must either continue the pressure or resort to the issue of one pound note. This latter expedient, has at former periods of the financial history of the country, proved a sovereign remedy. The natural question that arises is how will this state of things affect the country? We have always believed that the failures in England would not cause stoppages to any great extent here—we still continue in this belief. The fact is that during the past four months, but few of the English agents and houses here, have been willing to draw and make advances on produce, and even if they had been negotiated, all the ordinary channels of operations in Bills, have been cut off or reduced to a very narrow point.

The prominent houses here, who are connected with banking and mercantile establishments in England, have rather declined drawing on their friends.

Business has taken such a course, that there are very few Bills running to maturity, and consequently but few, under any circumstances, to be dishonored. It has so happened that none of the leading bankers and mercantile houses in London, (two or three excepted, that are closely connected with the trade of this country) have stopped—and thus no Bills of any serious amount have been returned.

## ARTS AND SCIENCES.

NEW YORK CITY, Sept. 16, 1847.

To the Editor of the Cecil Whig:

DEAR SIR:—Perhaps you have noticed in some of the New York papers a statement concerning the remarkable powers of a mathematician in that city, who adds, subtracts, multiplies divides and performs all other arithmetical calculation with a rapidity that seems almost miraculous. As I am that person I will endeavor to give you a correct statement of the facts, which I hope you will publish. First, let a column of figures, say 3000 in length, and 10 or 20 in breadth be placed before me, in less than five seconds of time I will give the sum total, always commencing on the left hand side to write the answer down. It matters not what length the column is or what breadth, I will give the sum total as fast as the figures can be written down. Second; let a sum be written down in multiplication with 1000 figures as the multiplier, and as many in the multiplicand, and I commence on the left hand side and write the product underneath in one line as fast as the figures can be written down. Third, let a sum be written in division with any large amount for a divisor, and I commence on the right hand side, by writing down the remainder first, then the quotient. Interest at any per cent. can be performed in the same manner without using any extra figures. Fraction of any denomination can be summed up instantly without reducing them to a common denomination. In fact all arithmetical calculations can be performed by these rules in two or three seconds. These rules can be learned in one half hour by any person having the printed instructions. Please insert this in your paper, also stating that any person wishing these rules will enclose \$10 through the N. York Post Office. Please forward me one paper containing this, and on receipt thereof I will forward you a full set of the rules, gratis, by which you may become as expert at figures as I am.

I am your humble and ob't serv,  
PETER M. DESHONG,  
The Mathematician.

P. S. Other editors copying the above and forwarding Mr. Deshong one paper containing it will be furnished with a full set of the rules.

### MARRIED.

On the 28th ult. by the Rev. M. D. Kurtz, Mr. ALEXANDER WHITELY to Miss CELIA ANN CONNELLY.

In Vienna, on Tuesday last, by the same, Mr. BENJAMIN B. HEARN to Miss CHARLOTTE ANN SMITH all of this county.

### THE WEEKLY.

## National Whig.

ONE of the largest newspapers in the United States, is made up from the columns of the Daily National Whig, and is published every Saturday for the low price of two dollars per annum payable in advance. A double sheet of eight pages will be given whenever the press of matter shall justify it.

THE NATIONAL WHIG is what its name indicates. It speaks the sentiments of the Whig party of the Union on every question of public policy. It advocates the election to the Presidency of ZACHARY TAYLOR, subject to the decision of a Whig National Convention. It makes war to the knife upon all the measures and acts of Administration deemed to be adverse to the interests of the country, and exposes without fear or favor the corruption of the party in power. Its columns are open to every man in the country for the discussion of political or any other questions.

In addition to politics, a large space in the National Whig will be devoted to publications upon Agriculture, Mechanics, such other useful arts, Science in General, Law, Medicine, Statistics, &c. Choice specimens of American and Foreign Literature, will also be given including Reviews &c. A weekly list of the Patents issued by the Patent Office will likewise be published—the whole forming a complete family newspaper.

CHARLES W. FENTON,  
Proprietor of the National Whig,  
Washington, D. C.

## DR. THOMPSON'S MEDICATED SYRUP OF CASTOR OIL.

THE subscriber would most respectfully inform the Citizens of Cambridge and the Public generally, that he has succeeded in making Castor Oil perfectly agreeable; and while it is rendered agreeable to the taste, the Cathartic properties are very little if any diminished; and by the medication all that acid quality of which oil is generally possessed, which rendered it inadmissible with some persons, especially with infants, is entirely destroyed.

It is well known that Castor Oil is almost an universal medicine—entering into the use of every family, and administered in the treatment of almost every disease—and would be much more frequently prescribed by physicians, was it not for the great aversion patients have to its use.—But in this preparation, the subscriber can assure physicians and patients, they will find it so perfectly agreeable to the taste, that infants and ladies of the most delicate stomachs can take it without the least inconvenience. Indeed it is so perfectly palatable that should it be found necessary to take a little more in a dose it will not be found objectionable to the patient.

The Medicated Syrup of Castor Oil may be had at the subscribers Laboratory or of Mr. Solomon Rutter. Wholesale and Retail orders from a distance promptly attended to.

## Trustees Sale.

BY virtue of a decree of the High Court of Chancery we will sell at Deuton in Caroline County on TUESDAY the 16th of November next, between the hours of 10 o'clock A. M. and 4 o'clock P. M. to the highest and best bidder, the following tracts of land the property of Richard Hughtlett late of Dorchester County deceased, all lying and being in Caroline County:

FARM No 1, on which Gideon Clarke now resides lying on the county road leading from Whitesburg to Greensborough, about one mile from Whitesburg and four miles from Whitesburg, containing 436 acres of Land more or less, laid off in three fields with good buildings thereon. About one-third of the land is in wood and timber of the best quality. The arable land is good and susceptible of a high state of improvement.

FARM No 2, now in the occupancy of Israel Parris containing 401 acres more or less, about one-half in wood and timber of the best quality and lies adjoining No. 1 and about the same distance as No 1 from the above mentioned villages of Greensborough and Whitesburg.

FARM No. 3, containing 424 acres more or less, lying immediately on the road leading from Greensborough to Sandtown in the State of Delaware and about three miles from Choptank river with a sufficiency of wood and timber a part of which is hickory of the best quality.

FARM No. 4, now in the occupancy of John Parris containing 502 acres more or less, lying on the Choptank river and about one mile from Greensborough; a large portion of this farm is in wood and timber, composed of Oak, Hickory and Pine; there is supposed to be from 50 to 100 acres lying immediately on the river. This tract is of good quality, and in fact the whole of the above described property offers great advantages to those who are engaged in the timber business, or who may wish to purchase with a view to residences. The most remote part of the herein before described property from navigable water is but a few miles. The said lands will be sold subject to the dower right of Mrs. Margaret Hughtlett, widow of the said Richard Hughtlett.

The Terms of sale as prescribed by the decree, are one-fourth in cash on the day of sale or on the ratification of the sale by the Chancellor, and the residue of the purchase money in nine and twelve months from the day of sale—the entire amount of the said residue bearing interest from the day of sale, and the payment thereof to be secured by the bonds of the purchaser or purchasers, with surty or surties to be approved by the Trustees. Upon the payment of the entire purchase money and not before, a clear and indisputable title will be given, subject as aforesaid to the right of dower of the widow.

The Creditors of the said Richard Hughtlett late of Dorchester County deceased, are hereby notified to file their claims with the vouchers thereof in the Chancery Office, within four months from the day of sale of the said real estate herein before mentioned.

## Latrobe's Justice Practice.

4TH EDITION.—PRICE 3 DOLLARS; Just Published by FIELDING LUCAS, Jr., No. 170 Market St., Balt.

The well established reputation of this work makes it unnecessary to say more of its merits than to state the fact that it has superseded all others on the subject in the State of Maryland. For the Justice of the peace and Constable it may in some measure stand in the place of a law library—to the merchant and man of business, and to the property holder either in town or country it is very valuable, as it treats of matters of almost daily interest to all classes of the community.—All the laws which affect the duties of the Justice of the Peace passed up to December session 1846 inclusive, have been noticed in this edition, and various improvements in the arrangement of the different subjects treated upon have been made.
