MERITED TRIBUTE.—Captain G. T. M. DAVIS, of Alton, Illinois, editor of the Alton Telegraph, one of the ablest Whig papers in the West, has been with the army in Mexico during the present brilliant campaign, and has won his full share of honor as well as danger. The following account of a well merited tribute to his gallantry, we copy from the City of Mexico Daily American Star:
CAPTAIN G. T. M. DAVIS.—This gallant and efficient officer was unexpectedly waited upon yesterday afternoon, at the Palace, by the officers of the New York Regiment, and presented with the richest pair of spurs we ever beheld. They are of solid silver (excepting, of course, the jewels), and richly ornamented, on their external face, with chased reliefs of the finest gold. On the inner face of each spur is this inscription: TO CAPT. G. T. M. DAVIS, "Benemerito de su patria."

FROM THE OFFICERS OF THE N. YORK REGIMENT.
The cost of the spurs, we are informed, was eighty dollars, and are worthy of the man, who is, himself, worthy of every good gift.
Capt. Hutton acted as the organ of his brother officers, and made the presentation in a speech of exceeding neatness and propriety. The remarks of Captain Davis, in reply, as well by their tone and their substance, showed how feelingly sensible was the reception to what he thought the partial kindness of his brethren in arms. Never, on occasion of the kind, do we recollect to have listened to a train of remarks in better taste or in better feeling, than those which fell from his lips.
Capt. Davis is a native of the city of New York, and has been, for many years, a citizen of Illinois. He entered this war in its earliest stage as aid to Gen. Shields. With that gallant general he had been in nearly every battle of Central America, and in both of which he was distinguished—he became the private secretary and volunteer aid of Gen. Quitman. He has fought the good fight through, has seen the flag of his country wave over the enemy's capital, and the army of the enemy utterly routed and disbanded. He is now about to leave his companions-in-arms—after having endured all their privations, shared all their perils and lent his own valiant heart, sound head and indefatigable energy to the achievement of what will become, through all time, their world-renowned victories. He is now going home—bearing along the respect and esteem of the whole army. May God's blessing go with him.

Medal for Gen. Taylor.—The New York correspondent of the Washington Union, says:—"Talking of Medals, the great medal to be presented by the State of Louisiana to Gen. Taylor is now in progress in this city. The dies alone will cost \$1,000. They are in the hands of the best artist in that line in this country—C. C. Wright, of this city. On obverse is the battle of Buena Vista, from a very spirited design, and the reverse the arms of the State of Louisiana."

COLDS, COUGHS AND CONSUMPTION.—Wright's Indian Vegetable Pills are a most delightful medicine for carrying off a cold, because they expell from the system all morbid and corrupt humors (the cause of every kind of disease) in so easy and natural a manner that the body is relieved of all its sufferings as if by magic. Four or five of said Indian Vegetable Pills, taken every night on going to bed, will in a short time remove the most obstinate cold,—at the same time the digestive organs will be restored to a healthy tone, and the blood so completely purified, that inflammation of the lungs, consumption, or any other form of disease will be absolutely impossible.

Beware of Counterfeits of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.
The genuine for sale by NEWTON & CREIGHTON, who are the only authorized agents for Cambridge.

TO THE WHIGS OF DORSET.
The undersigned, proprietor of the "CAMBRIDGE CHRONICLE," wishing to give his Journal a larger circulation in order that its efficiency as an advocate of Whig principles may be thereby increased, respectfully appeals to the Whigs of Dorchester to sustain him by their patronage. He pledges himself to spare no pains to make the "Chronicle" a useful and interesting sheet—ardently devoted to the maintenance of Whig principles, and at the same time furnishing an interesting summary of COMMERCIAL, AGRICULTURAL and LITERARY intelligence. The ensuing year promises to be one of almost unprecedented importance.—The deep and momentous questions growing out of the Mexican war address themselves to the heart of every patriot—are such as menace the stability of our Union, and should be thoroughly understood by the people. Congress will probably be in session at least eight months of the year, and in that body questions will arise and be discussed and settled that it behooves every man to understand. It will be the constant aim of the undersigned to furnish the subscribers to the "Chronicle" with full and reliable information upon those vital questions, and with the latest news. Independently of this, every man is concerned in the local news transpiring in the County, and to keep pace with that would of itself be sufficient compensation for the small outlay required to pay for the paper. Again, it is the manifest duty of the Whig party to render a liberal support to its press. Without its powerful aid no party could long exist, and surely the Whig party is not so unreasonable as to require the aid of a party paper without a fair equivalent. Every

man who believes the principles of the Whig party to be the true principles of the government, and who desires their success should aid in supporting a Whig paper. The sum required is small—nothing in fact compared to the benefit he derives in return. And the subscriber trusts that his efforts to advance the glory and honor of the Whig party will be met in a proper spirit by its members, and that they will come forward and attest their devotion to Whig principles by subscribing to the "Chronicle."
TERMS:—\$2 per annum, if paid in advance, or \$2 50cts. if not paid until the end of the year.

ARTS AND SCIENCES.
NEW YORK CITY, Sept. 16, 1847.
To the Editor of the Cecil Whig:
DEAR SIR:—Perhaps you have noticed in some of the New York papers a statement concerning the remarkable powers of a mathematician in that city, who adds, subtracts, multiplies divides and performs all other arithmetical calculation with a rapidity that seems almost miraculous. As I am that person I will endeavor to give you a correct statement of the facts, which I hope you will publish. First, let a column of figures, say 3000 in length, and 10 or 20 in breadth be placed before me, in less than five seconds of time I will give the sum total, always commencing on the left hand side to write the answer down. It matters not what length the column is or what breadth, I will give the sum total as fast as the figures can be written down. Second; let a sum be written down in multiplication with 1000 figures as the multiplier, and as many in the multiplicand, and I commence on the left hand side and write the product underneath in one line as fast as the figures can be written down. Third, let a sum be written in division with any large amount for a divisor, and I commence on the right hand side, by writing down the remainder first, then the quotient. Interest at any per cent. can be performed in the same manner without using any extra figures. Fraction of any denomination can be summed up instantly without reducing them to a common denomination. In fact all arithmetical calculations can be performed by these rules in two or three seconds. These rules can be learned in one half hour by any person having the printed instructions. Please insert this in your paper, also stating that any person wishing these rules will enclose \$10 through the N. York Post Office. Please forward me one paper containing this, and on receipt thereof I will forward you a full set of the rules, gratis, by which you may become as expert at figures as I am
I am your humble and ob't serv,
PETER M. DESHONG,
The Mathematician.

P. S. Other editors copying the above and forwarding Mr. Deshong one paper containing it will be furnished with a full set of the rules.

DR. THOMPSON'S
MEDICATED SYRUP OF CASTOR OIL.

THE subscriber would most respectfully inform the Citizens of Cambridge and the Public generally, that he has succeeded in making Castor Oil perfectly agreeable; and while it is rendered agreeable to the taste, the Cathartic properties are very little if any diminished; and by the medication all that acid quality of which oil is generally possessed, which rendered it inadmissible with some persons, especially with infants, is entirely destroyed.

It is well known that Castor Oil is almost an universal medicine—entering into the use of every family, and administered in the treatment of almost every disease—and would be much more frequently prescribed by physicians, was it not for the great aversion patients have to its use.—But in this preparation, the subscriber can assure physicians and patients, they will find it so perfectly agreeable to the taste, that infants and ladies of the most delicate stomachs can take it without the least inconvenience. Indeed it is so perfectly palatable that should it be found necessary to take a little more in a dose it will not be found objectionable to the patient.
The Medicated Syrup of Castor Oil may be had at the subscribers Laboratory or of Mr. Solomon Rutter. Wholesale and Retail orders from a distance promptly attended to.

The following is selected out of a vast amount of testimony, showing the great value of Hunt's Liniment in cases of Rheumatism
To Geo. E. Stanton, Esq.—Sir—Having been afflicted with the Rheumatism for upwards of five years in my ankles and feet, and at times so painful that I could not walk, and had to be assisted to dress and undress myself; and having been under the care of four or five different physicians, and having tried almost every remedy I could hear of, but not to much effect, I had given up all hopes of ever being cured, until I heard of Hunt's Liniment, I tried one bottle of it, and found immediate relief. That is about four months ago, and in that time I have used about one dollar's worth, and feel almost as well as ever I did.—My family, as well as myself, can testify to its value; and I would advise all who are afflicted with pains and aches, to use Hunt's Liniment

Newcastle, 11th month, 1st, 1844.
George E. Stanton.
Esteemed Friend:—Thy letter of the 29th ultimo is received. In my reply I would say, that I have been troubled with a lame knee for several years, during which time it has distressed me much. I procured a bottle of Hunt's Liniment at thy store, early last spring, and I have used it freely, and I can say that since that time I have had little or no trouble with my knee. A friend, to whom I sent a bottle, informs me that it was a great benefit to her in a rheumatic affection. I have no hesitation in recommending it to any persons needing an external remedy.
