EASTON, Md., SATURDAY, SEPTEMBER 12, 1857.

GOD'S SUPPORT AND GUIDANCE. TRANSLATED TROM THE GERMAN. Forsake me not, my God! Thou God of my salvation-! Cive me thy light, to be: My sure illumination, Mr soul to foll: turns, Sceking she knows not what; Oh! lead her to thyself; Mr God forsake me not!

Forsake me not, my God! Take not thy spirit from me; And suffer not the might Of sin to overcome me. A father pitieth The chi!dren he beg My father, pity me; My God, forsake me not!

Forsake me not, my God ! Thou God of life and power, Enliven, strengthen me ! In every evil bour; And when the sinful fire Within my beart is bot, Be not far from me; My God, forsake me mot! Forsake me not, My God! Uphold me in going; That evermore I may Please Thee in all well doing, And that thy will, Q Lord, Mar never be forgot In all my works and ways, My God, forsake me not!

Forsake me not, my God! I would be thine forever; Confirm me mightil In every right en caror And when my hour is come, Chansed from all stain and spot Of sin, receive my soul! My God, forsake me not !

HERCULES IN THE TEMPLE OF ERROR.

THROWN .- The most stubborn enemies a Herald. great invention or discovery encounters, are the individuals with whose interests it interleres. Vast indeed must be its value, palpable as the sun the benefit it imparts, in order to override and subdue the professional opposition of the Apostles of Error whose theories it overthrows. Holloway' system of treatment founded upon immutable truth has accomplished this Herculean task: It has swallowed up conflicting dog-, mas, as the rod of the Patriarch swallowed up the rods of his less favored competitors. The old practice, with its complications and contradi tions, its volumes of my-tification. its absurdities cloaked in the dead languages, its profitable alliance between the physician and the anothecary, its pecuniary policy of regulating the progress of a cure by the length of the patient's purse, its blind experiments upon the constitution, its skirmi-hing with the manifestations of disease, its short sighted attempts to suppress instead of to destroy the materies morbi or seeds of a disorder, his been shaken to its very foundations by the uniform success of Holloway's two remedies! One of the great merits of his Ointment and Pills is that they remove the complaint without prostrating the strength of the patient .-The ordinary theory is that acute disease cannot be cured without weakening the invalid: the process of reinvigorating the system is an after consideration. Professor Holloway utterly rejects this plan of debilitating the patient in order to reduce the di-ease. His medicines sustain and assist nature while combatting and conquering the ma'ady, and nature, thus reinforced, expedites the cure.

It seems to us that this is a method o treatment that is consistent with common sense, however inconsistent it may be with of a sick man by powerful depleting mediou-ly of a portion of that vitality which The husband of her daughter, Sally, was a As might be supposed the tories were indeed must be the constitution which can a white men.
