PHILOSOPHY AND FACT.

The blood is the life-sustaining agent. It furnishes the components of flesh, bone, muscle, nerve and integument. The stomach is its manutactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

The National Complaint. able dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ofdinary preparations, it yields readily and rapidly BILIOUS AFFECTIONS.

and all the varieties of disease generated by an un-

BOWEL COMPLAINTS. Unless the bowels perform their functions prop erly, the whole body suffers. Tens of thousands die annually of Dyspepsia, Diarrhoea, Chronic Constipation, and other diseases of these waste pipes of the system. The effect of the Pills upon. all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following
