INVALIDS, READ AND JUDGE FOR YOURSELVES. fules Hauel, Esq., the well known perfemer, of

Chestaut street, Philade'phia, whose choice products are found at almost every toilet, says: " I am happy to say of your CATHARTIC PILLS, that have found them a better family medicine for common use, than any other within my knowledge. Many of my friends have realized marked benefits from them and coincide with me in believing that they pre-ess extractdimany virtues for driving out diseases and curing the sick. They are not only effectual but safe and pleasant to be taken, qualities which must make them valued by the public, when they are known."

The venerable Chanceller WARDLAW, writes from Baltimore, 15th April, 1854; "DR. J. C. We Sir: I take pleasure in adding my tertimony to the efficacy of your medicines, having derived very material benefit from the use of both your Pectoral and Cathartic Pills. I am never without them in my family, nor shall I ever consent to be, while my means will procure them." The widely renowned S. S. STEVENS, M. D., of Went-

In cases of disordered functions of the liver. causing headache, indigestion, costiveness, and the great variety of diseases that follow, they are a surer remedy than any other. In all cases where a purgative remedy is required, I confidently recommend these Pills to the public, as superior to any other I have ever found. " Acton, Me., Nov. 25, 1853. "Da J. C. With what feelings of rejoicing I write, can only be imagined when you realize what I have suffered,

" Never until now have I been free from this loathsome disease in some shape. At times it attacked my eyes, and made me almost blind, besides the unendurable pain; at others it settled in the scalp of my head, and destroyed my hair, and has kept me partly hald all my days; sometimes it came out in my face, and kept it for months a raw sore. "About nine weeks ago I commenced taking your Ca-

My wife was cured two years since, of a nevere and dangerous cough, by your CHERRY PECTURAL, and since then has enjoyed perfect health. EASE AND COMFORT. TOLLINGSWORTH'S TWO HUND-RED FLOATING BALLS, or KNUC-KLE WASHING MACHINE, will wash one dozen pieces of clothes in two minutes without injury to the most delicate material.

This Washing Machine has taken the gremium at all the Fairs where exhibited. It is pronounced by all who have seen it the wonder of the age. It is so simple in its construction as not to get out of The Machine is so easy to work that small children can take part in it; any half-grown girl of ordinary strength, however little used to labor, can do a regular week's washing, and derive great

benefit from the exercise, it being of the very best kind for strengthening the arms, chest and loins. BANK NOTES.-It will wash bank notes without tearing or injuring them. Therefore not only is great labor saved, but the clothes are not injured as by other machines and rubbing boards. This will be apparent to all who see it in operation strength returned—my appetite became good—my DUILDERS should know that by procuring as it is not a rubbing machine. THIS GENTLEMAN IS Well known throughout SYRESYBLE, Md., March 5th, 1856.

Gentlemen-In reply to your inquiries in regard to Hollingsworth's Floating Balls Washing Machine, 1 have to say the principle is certainly the test I have ever seen or used for the saving of labor, clothes, time and soap. Those in my family say they can wash six pieces by this machine to one on the old plan, and not feel the labor; the clothes being better those contemplating building can do so at a great washed. We are perfectly satisfied with the ma-

Yours, with respect, WM. BAKE. BALTIMORE, June 19, 1855. This is to certify that the undersigned has in use one of the PATENT KNUCKLE WASHING MA-HINES, and finds it to be everything claimed for it. The labor is greatly lessened, and the expedition with which a heavy washing is accomplished is surprising. A wash-day is accompanied by many inconveniences to well-regulated households, and any improvement by way of speed should be hailed with pleasure; and in this machine that is certainly obtained. The undersigned believes that the KNUCKLE WASHER must be generally adopted, as much time and labor are both saved, and the work better done, while the articles are not injured by the usual friction of rub-

bing in the old way of washing. John F. McJilton, "Baltimore Patriot." I fully endorse the above recommendation of Mr. McJilton. F. D. BENTEEN, Baltimore street, near Light. I have the KNUCKLE WASHING MACHINE in use in my family, and cheerfully concur in the above
