EASTON, MD., SATURDAY, JANUARY 11, 1862.

The Star of the Union.

The sky is dark save one fair star, All take their flight in still despair, But one still lives and burns afar, Tis cherished by a nation's prayer; It dwells serenely 'midst the night, More brightly burns with danger nigh, Loved emblem of a nation's night The Star of Union cannot die.

Though storms assail, they can but scar; The lightning's flash a moment quells: Columbia in her fiery car Above each conflict safely dwells.

Forever sparkle in thy sphere. Unharmed by passing meteors' glare; Thou art the star that all revere The brightest gem of earth and air.

Shine on forever, silver star! Shed lustre o'er each soldier's grave; And nations watch three from afar-The hope and beacon of the brave: A moment, war thy face may cloud, But brighter, dearer, shalt thou be When bursting from the sable shroud We hail thee-star of victory.
