It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our pound will do it has been proven by experiment on many of the worst cases to be found of the following complaints : -

This compound will be found a great promoter ! of health, when taken in the spring, to expel the foul humors which fester in the blood at that segson of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. (7) 17 17 Multitudes can, by the aid of this remedy, spare themselves from the enderance of foul coupliers and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to gish in the veins; cleanse it whenever it is foul, lows: and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go ! wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla lms, and deserves much, the reputation of accomplishing these ends. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dellar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, lut often no curative properties whatever. lience, bitter and painful disappointment has followed the use of the QUEENSWARE. various extracts of Satsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound San aparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which tests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
