> Preparation of Compound Extract Buchu. The component parts are BUCHU LONG LEAF, CUBEBS, JUNIPER

MODE OF PREPARATION .- Buchu, vacuo. Juniper berries, by distiliation to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used and a small portion of spirit. It is more

palatable than any now in use. Bucho, as prepared by Druggists, is of a cark color. It is a plant that conite its fragrance; the action of a flame de stroys this (its active principle.) leaving a dark and glutinous decoction. Mine s the color of ingredients. The Buchu n my preparation predominates; the Cartridges, smallest quantity of the other ingredients are added, to prevent fermentation; upon nspection, it will be found not to be a Tincture, as made in Pharmacopora, nor n cases where lever or inflammation ex.
