> NEW YORK, August 15th, 1868. Allow me to call your attention to my

Preparation of Compound Extract Buchu. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPAR

MODE OF PREPARATION .- Buchu, vacuo. Juniper berries, by distiliation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small portion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, 18 of a cark color. It is a plant that emitte its fragrance; the action of a flame de stroys this (its active principle,) leaving a dark and glutinous decoction. Mine s the color of ingredients. The Buchu n my preparation predominates; the smallest quantity of the other ingredients Cartridges, are added, to prevent fermentation; upon inspection, it will be found not to be Tincture, as made in Pharmacopæa, no is it a Syrup-and therefore can be used in cases where lever or inflammation exist. In this, you have the knowledge Powder Flasks, of the ingredients and the mode of pre-

Hoping that you will favor it with a irial, and that upon inspection it will meet with your approbation, With a feeling of confidence,
