THE PROPERTIES OF THE DIOSMA CRENATA were known as far back as two hundred years, and its peculiar effects on the Mental and Physical Powers are spoken of in the highest terms by the most eminent authors of the present and ancient date, among whom will be found Shakespeare, Byron and others, stating that in the nervous and prostrated system, from over taxation of powers, IT REANIMATES.

Its effects are more pleasing, and it does not depress the nerves or spirits—the ULTIMATUM of Narcotics and other stimulants.

From this fact it has proved eminently successful in those symptoms of a nervous temperament arising from sedentary habits and protracted application to business, literary pursuits, and confinement from the open air, and is taken by
