THE LION'S SKIN FALLEN OFF!

The American stands revealed. In its true colors... in all its native deformity—consistent in nothing except in hostility to the interests of the country...

THE ADVICE OF AN ENEMY.

The American denounces the destruction, by order of the authorities, of the railroad bridges and of the telegraphic wires, and asserts that such necessary measures of self-defense, "have not and cannot be the subject of approval of any considerable portion of those most deeply interested in the future of Baltimore."

THE DIFFERENCE.

There was a "Reign of Terror" once in Baltimore which was more worthy of Austria than of a free and Christian people. It was when the American... the mobbing of the office of a rival newspaper...

PICKING THEM OUT.

The New York Tribune yesterday selects the following distinguished citizens as the Government capital punishment, so soon as the Government troops occupy our city.

From the North.

We were again furnished last night with the latest Philadelphia and New York papers by Mr. H. Taylor, periodical and newspaper dealer, Sun Iron Building. We make up the following summary of news:

In the Northern States, cities, &c., including private subscriptions, the sum of \$11,250,000 has been contributed for war purposes. The steamer "F. W. Brown, Funny Commodore," has been chartered to the United States Government...

From Pensacola.

A mendacious despatch from a letter writer who admitted that he was stopped and sent home before he reached Pensacola, stated that there were no columbiads or heavy guns in possession of the confederate forces before Fort Pickens. This story is exploded by a correspondent of the "Atlantic Mercury" who thus particularly describes the works...

From Washington.

A despatch from Washington thus describes the condition, disposition and daily routine of the troops in Washington. The Sixth Massachusetts regiment is quartered at the Patent Office, where temporary berths are being put up for the men. Special apartments are being fitted up for Governor Sprague and staff...

From the South.

We received this morning by the Norfolk boat, papers from Norfolk and Portsmouth, of yesterday. They state that military affairs are being regularly and systematically arranged, but for obvious reasons, decline going into details.

From the North.

It is stated upon conclusive authority that the assertion made by Senator Douglas, that Virginia had offered Gen. Scott the Command-in-Chief of the first her forces is totally untrue. Gen. Scott is the first her forces to whom the position was tendered. It is however true, that the Administration used every exertion to secure the services of the latter, who was pronounced by Gen. Scott for the capture of the city of Mexico was adopted and successfully carried out.

From the North.

Up to last Saturday Gov. Letcher had the offer of 80,000 volunteers from Virginia and the Pennsylvania papers make a great flourish of the fact that that State has offered more than half this number to the Federal Government. The whole number of men subject to military duty in Virginia is 120,000.

From the North.

The Rev. Henry Ward Beecher preached a war sermon in Brooklyn on Sunday night and urged that the Plymouth Church Volunteers should be provided with revolvers.

From the North.

Desertions from the Massachusetts Regiment. From the correspondence of "Occasional" of the Philadelphia Press we derive the information that five of the 8th Massachusetts Regiment, which passed through Baltimore, refused in Washington to take the oath of allegiance. We give the highly colored statement of the reporter. After mentioning that it had come to the knowledge of the Major that certain men had not subscribed to the oath required, he proceeds:

From the North.

The Northern Press begin to be suspicious of the sudden eruption of Southern fugitives, who quarter themselves upon their Northern brethren without ceremony, and loudly cry for arms; a Philadelphia paper:

THE LEGISLATURE.

We have private advices from Frederick to the effect that everything is going on harmoniously and prosperously; that the Baltimore delegation is a unit on all important measures; and that a fixed determination to do every thing that may be necessary for the vindication of the rights, honor and dignity of the State pervades the entire body.

From Washington.

The Richmond papers have information from Washington, that deprecations upon private property by the troops are quite frequent, but the newspapers being under surveillance, nothing is allowed to transpire of these recalcitancies.
