The Inquisition Commenced.-Yesterday evening about 7 o'clock, whilet the dealsens of South Baltimore were quietly seated at their doors, some alarm was created by the appearance of a detachment of Pederal soldiers, fully armed and equipped, march ing into their midel. The military then marched off to their quarters .--The official report of their exploits will be looked i for with interest. We further learn that during Thursday night Col. In one room in the lower part of the house they discovered a surpicious looking box, and were about to confiscate it, when Mrs. Klewel ran into the room and with feigned alarm implored them . not to touch it, as it was an "infernal machine" containing a bomb. Had a bomb burst in their midst they could not have been more frightened, the whole party rushing in confusion from the house. As they made their hasty exit they were t saluted with a real of laughter from Mrs. K., who called after them-"Come back gentlemen, its only a samege duffing machine!" . The rebel scouts came back to-day, and have been showing themselves quite plentifully around the toll house on the other side, where they were disturbed on Tuesday evening by Captain Doubleday. It looks a little strange, and is a matter of universal remark bere, that General Cadwalader does not grant the permission to some of the numerous companies and parties who have volumteered to go over and rout these rescale, and allow the farmers to cut their wheat. "One old a ressionist on the other side, and right under note of our battery, is harvesting to-day as coolly he though there was not a soldler of any kind within a hundred miles of him, while good Union men are compelled to look on and see their fields

Our metropolitan police have done a great many silly things during the war, but the climas was capped in their arrest to-day of a citizen, who was guilty of no other crime than circulating a petition for signatures in favor of peace. The petition was addressed to the Congress of the United States. The petition had seven hundred names attached to It, and the person who had it in his possession is anid to be a quiet and respectable citizen.

The disastrous result of the affair at Matthias, Point, with the death of the gallant Capt. Ward, occasioned a painful sensation throughout the city to-day, followed by a very general conviction of the folly of trying to capture the enemy's battery at Aquia Creek until we have an adequate force, by land and water, to perform the operation suc-

Rev. Dr. Tyng, rector of St. George's (Episcowil) (Thurch, has assumed the whole editorship of the l'rutestant Churchman which has been for some time past the recognized organ of the Low Church party to this diocree. It is whispered that the reason for this step is to be found in the fact that the former editors were not sufficiently outspoken on the war question to please the Evangelical branch of the Church bere.

In the U.S. Prize Court to-day, the argument in the case of the British brig Hieretha, was resumed. Mr. Charles Edwards, on behalf of the owners of the captured vessel, contended that the cordon established around the ports of the rebelllous States did not constitute a blockade, and on this point cited the case of the Santissima Trinidada, which came before the Courts of Philadelphia, during the war between Spain and her colonies. The learned counsel also quoted the opinions and decisions of Chief Justice Marshall and Judge Story to show that a blockade could not lawfully be established in a state of rebellion or civil war. Judge Betts complimented Mr. Ed wards on the manner in which be had argued the case for his client, which was very satisfactory to the Court. The case was then adjourned until Mondan, when Mr. Everts will sum up for the Government.

The depot of the Third Avenue Railroad, destroyed by fire last evening, was insured for \$100,000, chiefly in city offices. Wall street shows but few signs of life, and the 'money kings" complain louder than ever of nothing to do. There are few borrowers in marhet, scarcely any at all, indeed, from the mercantile circles. He states that though money is scarce there is no lack of substantial food. Owing to a number of affrays having lately occurred in Washington, the military authorities

have detailed a number of regulars to patrol the streets during the day, as well as at night, for the purpose of arresting disorderly soldiers. In reference to the statement in the New York

This morning a flag of truce was men moving down the turnpike from the Confederate pickets towards the river. Lieut. Eiler, of Major Doubleday's command, crossed the river to meet the bearer of the flag. He found that they had h come with a letter to the Colonel of the 8th regiment of Pennsylvania volunteers. I have not learned the object of the letter, but it is supposed to have come from Lieut. Colonel Bowman, of that regiment, who was taken prisoner by the Confed-' erate pickets some days ago.

The Latest News.

The Tribune admits that it has been completely boazed in the matter of the Bott's letter: From a general acquaintance with the hand writing of Mr. Botts, we were convinced that the letter signed with his name which we received from Washington on Tureday last, and published in our columns yesterday, was really his, and in that belief, we laid it before our readers. We are now bound to state, however, that on comparing the hand-writing with undoubted specimens of that of Mr. Botta as we were yesterday enabled to do, we are led to believe that the letter is a for- | also terms, seed and expeditions. gery. But he landed his crews for the purpose of burning the brush, out of which the enemy's riflemen had been in the habit of firing at pass-
