It is said that they will try to show that the country has been led blindfolded into this war, and deceived as to its objects—that the President had expressdeclared, in his proclamation calling for 75,000 men, that they were for the defence of MILITARY TEXT BOOK, by L. It is said, also, that a carefully i prepared statement has been drawn up, showing RIFLE AND LIGHT INFANTRY TACTICS, Electrosed the number and character of the alleged outrages on the persons and property of non-combatants, committed by Federal troops operating in Virginia, particularly near Fortress Monroe, for which no redress whatever can be obtained. I have seen a copy of this statement, said to be drawn up by a GROSS MILITARY SURGRRY..... Union man living near Hampton. If its contents are true it is a burning shame to Gen. Butler; but it is well known that he is doing all in his power . to repress these irregularities, and the Administra-

tion cannot be held responsible for them. In regard to the Tariff, I am informed that Mr. Chase is strongly in favor of its modification in certain respects; but that he has been assured that, for several reasons, no modification or change in the Tariff can be made at the present session .-Among these reasons, the following have been assigned :- First, That the Tariff was adopted and passed at a full Congress, and after full deliberation; Second, That it has not yet been in operation long enough to give it a fair trial; Third, That any modification in it would be for the benefit of the States that are now in rebellion, and would therefore be unfair to the loyal States: Fourth. That it is desirable, if possible, to keep the Tariff out of this Congress; for, if it is introduced, it will lead to debates of interminable length, whereas it is desirable that this should be as short a session

as possible. l'believe a reconnoissance is now in progress in he public generally, a share of their patronage. the direction of Centreville, Managers and Leesburg. If my information is correct, the results of this reconnoissance will determine the immediate forward movement. A sufficient number of Republicans voted with
