

OUR POINTS

Next to personal security, says Mr. Justice Blackstone, the law of England secures...

By the Position of Right, a War, it is en-acted that no person shall be imprisoned or restrained...

our own Chief Justice Marshall, in the case of Bollman, a Grand Jury, says: "If at any time the public safety should require the suspension of the writ of habeas corpus..."

Historical Parallels. We hold these truths to be self-evident, that all men are created equal; that they are endowed with certain unalienable rights...

Yes, sir, we wish for peace, but how is that blessing to be preserved? I shall repeat here a few words...

A town meeting of Boston had been called at the Old South Church, on the 11th of the month...

Guard with jealous attention the public liberty. Suspect every one who approaches that liberty with dangerous intent...

The honorable gentlemen who presided, told us that to prevent abuses in our government...

Where are your checks in this government? Your strongholds will be in the hands of your enemies...

THE REVOLUTION

The glorious spirit of liberty is transplanted and left without hope but the life of the nation...

Here, said Mayhew, as he lamented the cold ad-vice of the timid good, and for himself, told the story of resistance to the grandeur...

The King, in his reply, pledged himself speedily to comply with the demands of the people...

They rushed on with headlong indignation, thinking not to enter the empire in a civil war...

As to the history of the Revolution, my ideas may be best to be set forth in a singular way...

Truth, being known, will prevail over artifice and misrepresentation. In such cases as these...

It was a maxim of the Roman people, which was never allowed to be violated...

But, pardon me, fellow-citizens, I know you want not a partition of the empire...

Upon the whole it has been the policy of the British authority to oblige us to supply our wants...

THE REVOLUTION

Gen. Washington's Advice. Upon the evacuation of Boston by the British, General Washington wrote a letter...

The enemy left all their works standing in Boston and on Bunker's Hill...

Gen. Washington's Advice. Upon the evacuation of Boston by the British, General Washington wrote a letter...
