The Crash In New York.

The telegraph reports a large number of heavy failures in New York yesterday, but the names of HENRY TAYLOR, the parties are not mentioned. Referring to the ) downfall of the great house of Clafflin, Mellen & Co., the Day Book says:

The strongest and firmest mercantile houses now begin to fall. Clafflin, Mellen & Co., have | at last succumbed to the pressure. Next to A. T. Stewart, this was considered the firmest house in RIFLE AND LIGHT INFANTRY TACTICS, tacteding New York. Their liabilities are estimated at from \$5,000,000 to \$10,000,000, with \$3,000,000 contidential. This house has been noted as one of the "political corporations" of New York. Its chief members were the pillars of Beecher's church. and in all anti-clavery enterprises they were fore- ) most in spirit and liberality. They have respect to the reward of their doctrines.

Despatches received in town also report the failure of the large and extensive banking house of Green & Stone, of Muscatine, lows. It was a large stockholder in the State Bank of Iowa, and some fears are entertained that it may affect the ! credit of that institution. Southern Highte Legislative Canens.

FREDERICK, August 5th .- The Southern Rights ) members of the Legislature held a fully attended) caucas to-night at the Senate Chamber and adopted resolutions to call a convention of the friends | of peace throughout the State opposed to the war policy of the Administration, to assemble in Baltimore on Tuesday, September 10th, for the purpose of nominating candidates for Governor and Comptroller of the Treasury, and Commissioner of the Land Office. They also determined upon issuing an address to the people of Maryland to be a signed by all the Southern Rights members

Southern Maryland. The wagon was not stopped ; by the inhabitants, but proceeded on as soon as it had been repaired. There were no troops at the time in that vicinity, but since then every road in the neighborhood has been closely guarded -Washington Republican.
