VOL. I.

BALTIMORE, SATURDAY, OCTOBER 19, 1861.

WAR MOVEMENTS.

THE DEPENCES OF NEW YORK, eral Longstreet, of Virginia. Davis, Beauregard Superior Court, has entertained those who are inlowing concerning the defences of New York and Brooklyn:

of the metropolis should be made, as far as buman | sion was withheld by higher authority. science and means can make them, absolutely impregnable. It cannot be said that they are so at] this time, although they have been greatly strengthened within a few months past.

The following is a list of all the forts about the harbor, with their full armaments and war garri-78 guns, South Battery 14 guns, all on Governor's Island, requiring for the three 800 men; Fort Gibson, Ellis Island, 15 guns, 80 men; Fort Wood, Bedlor's Island, 77 guns, 350 men; Fort Richmond, 140 guns, redoubt of Fort Tompkins 26 guns, Battery Hudson 50 guns, Battery Morton 10 guns—all on Staten Island at the Narrows. requiring for all 1,080 men: Fort Lafarette, Narat Sandy Hook (on the site of, and part of, the Buckner's force at 25,000, future fort), which will render important service | It is very difficult to decide what should be beett's l'oint, on land alreads purchased, and an- great expedition down the Mississippi. these deficiencies for the protection of the harbor | the Confederates have at no time had any other can be supplied by temporary batteries before next I thought than to make Kentucky the main theatre Spring, it remains for scientific engineering to of the nar .- Louisville Journal

Among the multitude of plans which have been and will be proffered for the defense of this city and Brooklyn from a wa and land attack, due gestions of Lieutenant Norton, which were officially published and much discussed several vears ago. Lieutenant Morton proposed to protect Brooklyn and New York, on the Long Island of civilization such disgrace, as are the consequent and sho the number of the hours and determinaside by a line of earthwarler in the rear of the former city, extending from Fort flamilton to miles of which (according to the Lieutenant's calculation) would need to be defended at a time. and power for evil than attaches to any band of aged man, appearantly blind. She asked his name. To man the line against all comers, only 65,000 militia would be required. The defense of the two cities from an assault by a force debarked on the Connecticut shore, he would accomplish by throwing up impromptuearthworks on the southern bank of Harlem river, and planting heavy desencelees country, to pillage and harry it ... paced into the apartment, where she found a the Narrows and the entrance to East river, (in addition to the present forts and numerous temporary batteries) would be upon torpedoes, several rows of which be would anchor in the channels, baving an electrical communication with them at the nearest fort.

THE ORDER TO GEN. FREMONT. order issued by the Secretary of War before he lest St. Louis, and after he had visited General cuse. At least, so it is reported to us. The out-Fremont at Tipton
