WHO IS GENERAL HALLECKS A VON e have had this inquiry put to us several times the rumor started that Gen. Halleck was to the following biography:

en. Henry Wager Halleck, who has been callo Washington from California for the purpose, | it is rumored, of recriving an important comnd in the army, is a New Yorker by birth. He ered the West Point Academy in 1835, was gineers; his commission bearing date July 1st t of Engineering; in 1841 he published a work "Bitumer and its Uses;" was made first lieuhant in January, 1845; and published an able ork on the "Elements of Military Art and Scihee" in 1846. Shortly after the Mexican war roke out. Licut. Halleck was sent to California; nd in September 1848, he was brevetted Captain for gallant conduct in affairs with the enemy on he 19th and 20th of November, 1847, and merito-

ions service in California, May 1st, 1847."

In California he was engaged in the military covernment, as Secretary of State, under General tie, but for the life of us we could not see why Kearney, Colonel Mason and General Riley, from 1847 to December, 1849. Afterwards he became chief of the staff of Commodore Shubrick, in the further united naval and military operations on He was also a member of the convention which met in 1849 to frame the Constitution of the State, and was on the committee which drafted the Constitution. He was made Captain of Engineers in July, 1853, and resigned his commission the following year, August 1st 1854. Since the breaking out of the present was the Government has recalled him to the army, an he returns now with the Commission of Major General, dating from August 19th of the present year. Orders were sent to General Halleck some time ago to report for duty in Washington, and is reported that he left, the Pacific side on the 1 of October. He may therefore be expected in Washington in a few weeks.

Fire Engine for California .- Messrs. Jno. Rod. Blues' Band, Prof. Holland, give nightly Concerts gers & Son, High street, have just completed a beautiful suction engine for the Young America, No. 6. of Sacramento, California, of which Mr. John H. Lyon is foreman. The following are the dimensions:-diameter of cylinders 7 inches | SALES AT THE BALTIMORE STOCK ROARD stroke 2 inches, length 8 feet, and diameter of wheels 4 feet 2 inches. There are double levers supported by brass fulcrum stands, lever poles of polished hickory with double ruled joints, and folding foot boards with brass ends, and a polised copper air-vessel. There are two sucking, two discharge and four receiving openings-all supplied with brass caps. The body rests on half ecliptic springs with wedge fixtures worked by wheel and screw, whilst the sucking tubes are carried on poles beneath the axles. The apparatus is brass mounted throughout in the best manner, but will be delivered in priming order. The name of the Company is engraved on brass plates | Reading ....... front and back, and that of the builders in the front ranel. The bed plate is of new design, being so arranged with valves as to receive water into the same on top at the two ends, thus dispensing with the movable stoppers heretofore used with engines drafting from both sides. The apparatus has all the improvements as to spring below Saturday's rates. fastenings for poles, levers, &c. On last Friday afternoon the builders tested the powers of the engine in front of their establishment, north High

by the 1sthmus route of Wells, Fargo & Co. Temperance Meeting .- A temperance meeting was held vesterday afternoon in the Camp of the I 6th Michigan regiment, at McKim's grounds, near Greenmount Cemetery, and was attended by a Company large concourse of people, among which was a large sprinkle of "Secessias," who doubtless were to kelver & Gray. much benefitted by the efforts of the distinguished gentlemen who addressed the civico-militario assemblage. The following gentlemen participated in the exercises: Revs. S. Sparklin, E. B. Hera, M. Andrews, Chaplain of the regiment, and Captain Fowler of the gallant 6th.
