Here was a pretty clever beginning; but these enterprising robbers of Deaf and Dumb people and now set to work with their wits Remembering the fact that Virginia had some quarter of a century ago, refused to receive her distributive por-Mc lion of a pretended land fund, which the Federal robbery; and supposing Seward and Lincoln to be knaves enough to rob either Virginia or the Federal Treasury of this corruption fund; they applied to the two Washington worthies for this displaying their own great needs. The application was rewarded by a warrant upon the Federal Treasury for the sum of \$44,857. Thus having borrowed of Norton, swindled the Deaf and Dumb, robbed the Lunatics, and, under false preney, they set up business with a booty of \$75,000. The most malignant and rabid enemy of the

South in this war is Pennsylvania. Curtin, its Governor, has been the most zealous and subservient tool of Beward and Lincoln, of all the " Northern State Executives. Pennsylvania has furnished the largest number of troops to the Federal army, in proportion to population, of all the Northern States; and withall, has furnished the meanest, most brutal, and most cowardly troops. The State of Carlile is, in fact, nothing but a colony of Pennsylvania. It is populated with Pennsylvania people, and they are as bitterly and malignantly hostile to the South as their kinsmen over the border. There are twelve counties in Northwestern Vir-

ginia, peopled by this beastly race, which espe-

cially sympathize with Pennsylvania in the present contest; and it was an easy matter for Peirpoint and Crane to collect from the sheriffs and clerks of these counties the moneys due by those functionaries to the treasury in Richmond. Not content with committing a series of sneaking robthat she wanted to see the loathsome creature that | beries themselves, they were now to be the cause of robbery in others. They called upon these sheriffs and clerks, who had collected money for the Commonwealeh of Virginia, to pay it over into their own hands. The call was obeyed; and thus, by a third robbery, they swelled the funds her courteously, only poking her in the ribs to of their spurious government to the sum of \$138,-000. But the game of robbery did not stop here. In the first days of the spurious government it made itself very popular with the North by giving out that it would assume payment of the interest on the public debt of this Commonwealth. In the expectation that it would do so, the neglected quota of the surplus fund belonging to Virginia was cheerfully paid over to it by the Federal Government under inspiration from Wall street.

does not "say turkey" to Wall street. His re-

port, as Second Auditor, is indeed an undisguised

and unblusting burlesque. He assumes that the

"State of Virginia," of which he is Treasurer

and Auditor, owes no debt at all. In the fervour

indulges in the following rhapsody: "When the rebellion is put down the citizens of the new State will be one of the happiest people upon the globe! No large debt to pay; no oppressor's hand upon them; the Tree of Liberty to shade them; the Flag of the Union to cheer them, and the Providence of God to bless them; who would not rejoice to dwell with them!" In keeping with this easy mode of getting rid of debt, he ridicules the thought of interest money and a sinking fund, and dismisses the subject in the following aweeping, if not classical, language: "The duties of the Second Auditor, in relation to the sinking fund, is easily reported—nothing in hand. And I hope nothing of a sinking character will ever attach to our new State. Let there be no sinking, but a moving motion onward to greatness and renown.

Wall street, we suppose, will be much consoled. by this very decided language of the "Virginia Treasurer." The taxes and fines that Pierpoint and Crane scized in the twelve counties were part-"All I want is, to be let alone," shricked the ly pledged to the interest on the debt of Virginia. They seize the taxes and say nothing to the holders of State bonds. Their new government is a swindle throughout. They swindle the deaf and dumb; they swindle the crazy; they swindle the Commonwealth of Virginia; they swindle the Federal Government; and they can the climax by swindling the public creditors of the very government which they affect to constitute. The Peirpoint-Crane concern is thus, by its own showing, the dirtiest nest of petty thieres and swindlere that disgraces Lincolndom.
